Mentify Final Test Case Document

Compiled: 2026-10-25 23:53 local time
Repository: Mentify tests
Sources: docs/test-case-mappings.csv, docs/*-test-cases.md, Java test sources, and the latest local target/test-evidence/test-register.csv
Purpose: submission-ready catalog of all mapped cases and their observed execution state

Scope and verification

This catalog contains 663 unique test cases across 27 areas. Each case below carries its requirement reference, level, priority, preconditions, scenario, expected result, mapped JUnit method, and run-specific status.

The latest local test-repository mvn -B --no-transfer-progress clean verify completed successfully: 103 Surefire tests, 0 failures, 0 errors, 0 skipped, and 0 Checkstyle violations. The case register is many-to-one: one JUnit method can support several case IDs, so passed case rows and executed JUnit methods are different counts.

Case-row outcome for this run: 117 Passed; 546 Not Run; 0 Failed; 0 Skipped; 0 Not Mapped.

Execution boundary: this evidence is the local static suite only. Live API, provider, performance, staging, and fixture-gated results are not inferred from it. A case marked Not Run requires its own JUnit/CI evidence before it can be reported as passed.

How to execute and update actual results

Run from the test repository root. Java 17, Maven, and Python are required.

mvn -B --no-transfer-progress clean verify
python tools/test-evidence.py --junit-dir target/surefire-reports --junit-dir target/failsafe-reports --metadata docs/test-case-mappings.csv --case-docs-dir docs --output-dir target/test-evidence --fail-on-unmapped-tests
python tools/build-final-test-case-document.py

For live integration in an approved, non-production environment, configure the URLs, test accounts, fixtures, and explicit opt-in flags in docs/environment-setup.md and docs/test-execution.md, then run:

$env:TEST_ENV_ENABLED='true'
mvn -B --no-transfer-progress verify -Pintegration
python tools/test-evidence.py --junit-dir target/surefire-reports --junit-dir target/failsafe-reports --metadata docs/test-case-mappings.csv --case-docs-dir docs --output-dir target/test-evidence --fail-on-unmapped-tests
python tools/build-final-test-case-document.py

Keep the JUnit XML, target/test-evidence/evidence.json, and generated target/test-evidence/test-register.csv for each run. Do not overwrite final submission evidence with another environment's run without updating this document. For staging, performance, and provider cases, follow their separate guarded workflows.

Case inventory by area

Mapping audit

Unique case IDs: 663; resolved Java class/method references: 663; unresolved source references: 0.
The register generator includes case IDs in the maintained CSV and detects documentation-only IDs in service case tables. This run reported 0 documentation-only cases.
Requirement references are copied from the maintained mapping; a label such as SRS-NOT-EXPLICIT is intentionally retained and is not treated as a formal SRS requirement.

Complete test case catalog

Ai

TC-TEST-020-01 / ai / AI Service readiness

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; AI Service available
Expected: AI integration support verifies required services and AI Service readiness before the health test
JUnit: AiHealthIT#healthEndpointReportsAiServiceUp
Source: src/test/java/com/mentify/tests/ai/AiHealthIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-02 / ai / Read AI health status

Requirement: AI health endpoint reports service readiness / Level: integration / Priority: high
Preconditions: AI Service
Expected: 200 response reports ai-service and UP
JUnit: AiHealthIT#healthEndpointReportsAiServiceUp
Source: src/test/java/com/mentify/tests/ai/AiHealthIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-03 / ai / Assert authenticated current-user response fields

Requirement: AI current-user identity and roles / Level: integration / Priority: medium
Preconditions: AI Service and student credentials
Expected: Current-user route returns a UUID userId and includes STUDENT in the roles list
JUnit: AiAuthorizationIT#studentCannotUseChatOrConversationManagement
Source: src/test/java/com/mentify/tests/ai/AiAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-04 / ai / Create disposable conversation

Requirement: Teacher can create an AI conversation / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED with Teacher credentials and AI Service
Expected: 201 response contains conversation ID
JUnit: AiConversationIT#teacherCanUseTheConversationLifecycle
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-05 / ai / List own conversations

Requirement: Conversation list includes created owner conversation / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED with Teacher credentials and AI Service
Expected: 200 list contains created conversation ID
JUnit: AiConversationIT#teacherCanUseTheConversationLifecycle
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-06 / ai / Read created conversation and messages

Requirement: Conversation owner can read conversation and messages / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED with Teacher credentials and AI Service
Expected: 200 responses contain conversation and message data
JUnit: AiConversationIT#teacherCanUseTheConversationLifecycle
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-07 / ai / Update created conversation title

Requirement: Conversation owner can update title / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED with Teacher credentials and AI Service
Expected: 200 response contains updated title
JUnit: AiConversationIT#teacherCanUseTheConversationLifecycle
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-08 / ai / Delete created conversation

Requirement: Conversation owner can delete conversation / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED with Teacher credentials and AI Service
Expected: Delete succeeds and subsequent read returns 404
JUnit: AiConversationIT#teacherCanUseTheConversationLifecycle
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-09 / ai / Conversation ownership isolation

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED; distinct Teacher and Admin credentials
Expected: Non-owner cannot read conversation/messages or update/delete; owner cleanup succeeds
JUnit: AiConversationIT#differentAdminOwnerCannotReadOrMutateTeachersConversation
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-10 / ai / Chat role authorization and allowed-role request

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED; AI_TEST_MODE; Teacher and Admin credentials; configured conversation
Expected: Teacher chat and Admin generation return HTTP 200 with response data
JUnit: AiProviderIT#deterministicProviderSupportsSafeChatAndGenerationTests
Source: src/test/java/com/mentify/tests/ai/AiProviderIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-11 / ai / Submit malformed conversation chat generation and summary inputs

Requirement: Invalid AI request fields are rejected / Level: validation / Priority: high
Preconditions: AI Service and Teacher credentials
Expected: Invalid requests return documented 400 responses
JUnit: AiValidationIT#invalidAiRequestsReturnClientErrorsOrNotFoundResponses
Source: src/test/java/com/mentify/tests/ai/AiValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-12 / ai / Administrator deterministic content generation

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED; AI_TEST_MODE; Admin credentials
Expected: Administrator generation returns HTTP 200 with response data
JUnit: AiProviderIT#deterministicProviderSupportsSafeChatAndGenerationTests
Source: src/test/java/com/mentify/tests/ai/AiProviderIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-13 / ai / Student and teacher are denied administrator-only general generation

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: AI Service; Student and Teacher credentials
Expected: Both non-admin roles receive HTTP 403 for general content generation
JUnit: AiAuthorizationIT#studentAndTeacherCannotUseAdministratorOnlyGeneration
Source: src/test/java/com/mentify/tests/ai/AiAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-14 / ai / Configured lesson summary

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED; deterministic provider; TEST_AI_LESSON_ID
Expected: HTTP 200 includes the configured lesson ID and a non-empty summary
JUnit: AiContentGenerationIT#shouldSummarizeConfiguredLessonWithDeterministicProvider
Source: src/test/java/com/mentify/tests/ai/AiContentGenerationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-15 / ai / Configured material summary

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED; deterministic provider; TEST_AI_MATERIAL_ID
Expected: HTTP 200 includes a non-empty summary and provider metadata
JUnit: AiContentGenerationIT#shouldSummarizeConfiguredMaterialWithDeterministicProvider
Source: src/test/java/com/mentify/tests/ai/AiContentGenerationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-16 / ai / Verify unauthenticated route reaches multipart parameter validation

Requirement: Public multipart quiz-generation route validation / Level: security / Priority: medium
Preconditions: AI Service only; malformed course UUID
Expected: Request reaches controller validation and returns 400 rather than 401
JUnit: AiAuthorizationIT#quizGenerationIsPublicAccordingToEffectiveBackendSecurity
Source: src/test/java/com/mentify/tests/ai/AiAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-17 / ai / Reject invalid count difficulty and question type before provider call

Requirement: AI quiz-generation semantic validation / Level: validation / Priority: high
Preconditions: AI Service only; no provider
Expected: Valid UUID with invalid semantic quiz-generation fields returns 400 without authentication or provider access
JUnit: AiValidationIT#publicQuizGenerationRejectsInvalidSemanticParametersBeforeProviderCall
Source: src/test/java/com/mentify/tests/ai/AiValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-18 / ai / Unauthenticated current-user conversation and chat requests

Requirement: Protected AI endpoints reject anonymous requests / Level: security / Priority: high
Preconditions: AI Service and API Gateway
Expected: All protected probes return 401 Unauthorized
JUnit: AiAuthorizationIT#unauthenticatedProtectedAiRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/ai/AiAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-19 / ai / Read update and delete unknown conversation

Requirement: Unknown conversation routes return not found / Level: validation / Priority: medium
Preconditions: AI Service and Teacher credentials
Expected: Unknown conversation operations return 404
JUnit: AiValidationIT#unknownConversationReadUpdateAndDeleteRoutesReturnNotFound
Source: src/test/java/com/mentify/tests/ai/AiValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-20 / ai / Controlled AI provider failure is returned safely

Requirement: SRS-NOT-EXPLICIT / Level: resilience / Priority: high
Preconditions: TEST_RESILIENCE_ENABLED=true; FAULT_INJECTION_ENABLED=true; TEST_PROVIDER_FAILURE_MODE=true; AI Service backed by controlled failing provider; Admin credentials
Expected: HTTP 5xx response; controlled provider sentinel is not exposed
JUnit: AiProviderFailureIT#controlledProviderFailureReturnsSanitizedServerError
Source: src/test/java/com/mentify/tests/ai/AiProviderFailureIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-23 / ai / Assert successful provider outputs

Requirement: Deterministic AI chat and generation return success / Level: integration / Priority: high
Preconditions: AI_TEST_MODE=true and TEST_AI_WRITE_ENABLED=true
Expected: 200 with response data
JUnit: AiProviderIT#deterministicProviderSupportsSafeChatAndGenerationTests
Source: src/test/java/com/mentify/tests/ai/AiProviderIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-24 / ai / Summarize configured lesson

Requirement: Lesson summarization returns non-empty summary / Level: integration / Priority: high
Preconditions: AI deterministic provider and TEST_AI_LESSON_ID
Expected: 200 with non-empty summary
JUnit: AiContentGenerationIT#shouldSummarizeConfiguredLessonWithDeterministicProvider
Source: src/test/java/com/mentify/tests/ai/AiContentGenerationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-25 / ai / Summarize configured material

Requirement: Material summarization returns non-empty summary / Level: integration / Priority: high
Preconditions: AI deterministic provider and TEST_AI_MATERIAL_ID
Expected: 200 with non-empty summary
JUnit: AiContentGenerationIT#shouldSummarizeConfiguredMaterialWithDeterministicProvider
Source: src/test/java/com/mentify/tests/ai/AiContentGenerationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-26 / ai / Generate quiz draft with deterministic provider

Requirement: AI quiz generation creates the requested number of questions / Level: integration / Priority: high
Preconditions: AI deterministic provider and TEST_AI_COURSE_ID
Expected: 200 with three questions
JUnit: AiContentGenerationIT#shouldGenerateQuizDraftWithDeterministicProvider
Source: src/test/java/com/mentify/tests/ai/AiContentGenerationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-27 / ai / Reject cross-owner conversation reads and mutations

Requirement: AI conversations are isolated to their owner / Level: integration / Priority: high
Preconditions: TEST_AI_WRITE_ENABLED=true plus distinct teacher and admin credentials
Expected: Admin receives 404 for teacher-owned conversation read/messages/update/delete and owner cleanup succeeds
JUnit: AiConversationIT#differentAdminOwnerCannotReadOrMutateTeachersConversation
Source: src/test/java/com/mentify/tests/ai/AiConversationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-28 / ai / Public quiz-generation semantic validation

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: AI Service only; no provider call
Expected: Invalid question count, difficulty, or question type returns HTTP 400 before provider invocation
JUnit: AiValidationIT#publicQuizGenerationRejectsInvalidSemanticParametersBeforeProviderCall
Source: src/test/java/com/mentify/tests/ai/AiValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-29 / ai / Open direct AI WebSocket and authenticate a STOMP session

Requirement: AI STOMP CONNECT authenticates teacher access token / Level: integration / Priority: high
Preconditions: TEST_AI_WEBSOCKET_ENABLED=true and teacher credential; AI Service directly reachable
Expected: Authenticated teacher receives STOMP CONNECTED without sending chat or invoking provider
JUnit: AiWebSocketIT#teacherCanAuthenticateAiStompWebSocketConnection
Source: src/test/java/com/mentify/tests/ai/AiWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-30 / ai / Reject unauthenticated AI STOMP connections through service and Gateway

Requirement: NFR-SE001; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_AI_WEBSOCKET_ENABLED=true; AI Service and API Gateway
Expected: STOMP CONNECT without Authorization is rejected through both ingress paths
JUnit: AiWebSocketIT#unauthenticatedAiStompConnectionsAreRejectedByServiceAndGateway
Source: src/test/java/com/mentify/tests/ai/AiWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-31 / ai / Reject student role at AI STOMP CONNECT

Requirement: NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_AI_WEBSOCKET_ENABLED=true; student credential; AI Service
Expected: Student JWT does not receive STOMP CONNECTED because only teacher/admin roles are authorized
JUnit: AiWebSocketIT#studentCannotAuthenticateToAiStompEndpoint
Source: src/test/java/com/mentify/tests/ai/AiWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-32 / ai / Reject unapproved AI STOMP destinations

Requirement: NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_AI_WEBSOCKET_ENABLED=true; teacher credential; AI Service and API Gateway
Expected: Unapproved SUBSCRIBE and SEND destinations are rejected by the STOMP interceptor
JUnit: AiWebSocketIT#teacherCannotUseUnapprovedAiStompDestinations
Source: src/test/java/com/mentify/tests/ai/AiWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-020-33 / ai / Deliver safe unknown-conversation error over AI STOMP user queue

Requirement: NFR-SE001 / Level: integration / Priority: medium
Preconditions: TEST_AI_WEBSOCKET_ENABLED=true; teacher credential; AI Service and API Gateway; synthetic random conversation UUID
Expected: The user queue receives PROCESSING then a safe AI conversation not found error; provider is not invoked
JUnit: AiWebSocketIT#teacherReceivesSafeErrorOnUserQueueForUnknownConversationWithoutProviderCall
Source: src/test/java/com/mentify/tests/ai/AiWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-AI-001 / ai / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.ai.AiClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/ai/AiClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.ai.AiClientTest.xml

TC-UNIT-AI-002 / ai / client Rejects Blank Resource Identifiers

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.ai.AiClientTest#clientRejectsBlankResourceIdentifiers
Source: src/test/java/com/mentify/tests/ai/AiClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.ai.AiClientTest.xml

TC-UNIT-AI-003 / ai / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.ai.AiClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/ai/AiClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.ai.AiClientTest.xml

Analytics

TC-ANALYTICS-001 / analytics / Read aggregated admin analytics overview

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: API Gateway and authenticated administrator; analytics dependencies available
Expected: Admin receives overview fields and aggregation partial-status indicator
JUnit: AdminAnalyticsIT#administratorCanReadAdminAnalyticsOverview
Source: src/test/java/com/mentify/tests/course/AdminAnalyticsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-ANALYTICS-002 / analytics / Restrict admin overview to admin roles

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: security / Priority: high
Preconditions: API Gateway and student credentials plus anonymous request
Expected: Student receives 403 and unauthenticated request receives 401
JUnit: AdminAnalyticsIT#nonAdminCannotReadAdminAnalyticsOverview
Source: src/test/java/com/mentify/tests/course/AdminAnalyticsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-ANALYTICS-003 / analytics / Read internal service analytics over service-discovery Gateway routes

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: API Gateway and all analytics source services with administrator credentials
Expected: Eleven internal aggregate endpoints return successful responses through explicit or service-discovery Gateway ingress paths
JUnit: InternalAnalyticsIT#administratorCanReadInternalAnalyticsOverviewsThroughTheirGatewayRoutes
Source: src/test/java/com/mentify/tests/course/InternalAnalyticsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-ANALYTICS-006 / analytics / Read course analytics summaries through Gateway

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_INTERNAL_ANALYTICS_COURSE_ID plus API Gateway, seven analytics source services, and admin credentials
Expected: Six course-scoped analytics summary routes return HTTP 200 for an approved course
JUnit: InternalAnalyticsIT#administratorCanReadCourseAnalyticsSummariesForConfiguredCourse
Source: src/test/java/com/mentify/tests/course/InternalAnalyticsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

Api

TC-TRACE-001 / api / shouldReadGatewayHealthAfterReadinessPasses

Requirement: SRS-NOT-EXPLICIT (Gateway health probe; does not measure uptime) / Level: integration / Priority: high
Preconditions: See ApiClientIT test configuration
Expected: Gateway health endpoint returns HTTP 200 after required services pass readiness
JUnit: ApiClientIT#shouldReadGatewayHealthAfterReadinessPasses
Source: src/test/java/com/mentify/tests/api/ApiClientIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-API-001 / api / should Build Client For Requested Service Given Service Configuration

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.api.ApiClientConfigurationTest#shouldBuildClientForRequestedServiceGivenServiceConfiguration
Source: src/test/java/com/mentify/tests/api/ApiClientConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.api.ApiClientConfigurationTest.xml

TC-UNIT-API-002 / api / should Use Configured Gateway Url Given Custom Environment

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.api.ApiClientConfigurationTest#shouldUseConfiguredGatewayUrlGivenCustomEnvironment
Source: src/test/java/com/mentify/tests/api/ApiClientConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.api.ApiClientConfigurationTest.xml

TC-UNIT-API-003 / api / should Use Gateway And Timeout Configuration Given Environment Defaults

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.api.ApiClientConfigurationTest#shouldUseGatewayAndTimeoutConfigurationGivenEnvironmentDefaults
Source: src/test/java/com/mentify/tests/api/ApiClientConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.api.ApiClientConfigurationTest.xml

TC-UNIT-API-004 / api / should Create Json Request Specification Given Valid Configuration

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.api.ApiRequestSpecificationFactoryTest#shouldCreateJsonRequestSpecificationGivenValidConfiguration
Source: src/test/java/com/mentify/tests/api/ApiRequestSpecificationFactoryTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.api.ApiRequestSpecificationFactoryTest.xml

TC-UNIT-API-005 / api / should Reject Invalid Path Given Path Does Not Start With Slash

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.api.ApiRequestSpecificationFactoryTest#shouldRejectInvalidPathGivenPathDoesNotStartWithSlash
Source: src/test/java/com/mentify/tests/api/ApiRequestSpecificationFactoryTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.api.ApiRequestSpecificationFactoryTest.xml

Assignment

TC-TEST-011-01 / assignment / Teacher creates an assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Created assignment returns an ID and the expected title, course, dates, attempts, and rubric
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-02 / assignment / Teacher retrieves the created assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Read response contains the created assignment ID
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-03 / assignment / Teacher lists the created course assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Course assignment list contains the created assignment ID
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-04 / assignment / Teacher updates the assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Update returns HTTP 200 and the changed title; omitted rubric data is preserved
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-05 / assignment / Teacher publishes the assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Publish returns HTTP 200 and status PUBLISHED
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-06 / assignment / Teacher closes the assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Close returns HTTP 200 and status CLOSED
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-07 / assignment / Teacher deletes the test-created assignment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED; owned course/module; Teacher credentials
Expected: Delete succeeds for the synthetic assignment created by the test
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-08 / assignment / Create a draft on configured assignment

Requirement: Student creates a draft submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and student fixture
Expected: 201 draft response contains the created submission ID and DRAFT status
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-09 / assignment / Change draft submission content

Requirement: Student updates a draft submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and student fixture
Expected: 200 and updated content persists before submission
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-10 / assignment / Submit draft and inspect status

Requirement: Student submits a draft submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and student fixture
Expected: 200 and status is SUBMITTED
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-11 / assignment / Verify submitted item appears in own submission list

Requirement: Student lists own submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and student fixture
Expected: 200 list contains the created submission ID
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-12 / assignment / Verify submitted item appears for teacher

Requirement: Teacher lists submissions for assignment / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and teacher fixture
Expected: 200 list contains the created submission ID
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-13 / assignment / Grade submitted work

Requirement: Teacher grades a submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and teacher fixture
Expected: 200 and marks persist
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-14 / assignment / Return the graded submission

Requirement: Teacher returns graded submission / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED with assigned course/assignment and teacher fixture
Expected: 200 and status is RETURNED
JUnit: SubmissionWorkflowIT#studentCanCreateUpdateAndSubmitDraftAndTeacherCanReviewIt
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-15 / assignment / Probe protected assignment and submission routes anonymously

Requirement: Assignment and submission routes require authentication / Level: security / Priority: high
Preconditions: Assignment Service
Expected: Protected assignment/submission operations return 401
JUnit: AssignmentAuthenticationIT#rejectsProtectedAssignmentAndSubmissionRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-16 / assignment / Submit an empty assignment create request

Requirement: Invalid assignment create payload is rejected / Level: validation / Priority: medium
Preconditions: Assignment Service and teacher credentials
Expected: Empty create payload returns 400 before persistence
JUnit: AssignmentAuthenticationIT#rejectsInvalidAssignmentPayloadBeforeCreation
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-17 / assignment / Read assignment with unknown UUID

Requirement: Unknown assignment returns not found / Level: validation / Priority: medium
Preconditions: Assignment Service with read fixture configuration
Expected: Unknown assignment returns 404
JUnit: AssignmentWorkflowIT#unknownAssignmentIsNotReportedAsServerError
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-18 / assignment / Assignment client validates required path identifiers

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: medium
Preconditions: No backend required
Expected: Blank assignment and course identifiers are rejected locally
JUnit: AssignmentClientTest#rejectsBlankAssignmentAndCourseIdentifiers
Source: src/test/java/com/mentify/tests/assignment/AssignmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.assignment.AssignmentClientTest.xml

TC-TEST-011-19 / assignment / PATCH assignment title while draft

Requirement: Assignment partial update preserves omitted fields / Level: integration / Priority: high
Preconditions: Assignment Service with write fixtures enabled
Expected: Changed field persists and omitted fields are unchanged
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-20 / assignment / Read paged student assignment list filtered by course

Requirement: Student reads only eligible assignments in an enrolled course / Level: integration / Priority: high
Preconditions: Assignment and Enrollment Services plus matching student/course fixtures
Expected: 200 with valid page metadata and no DRAFT entries
JUnit: StudentAssignmentIT#studentCanReadFilteredPagedAssignmentsForAnEnrolledCourse
Source: src/test/java/com/mentify/tests/assignment/StudentAssignmentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-21 / assignment / Invalid page size and reversed due-date range

Requirement: Student assignment query rejects invalid page/date ranges / Level: validation / Priority: medium
Preconditions: Assignment Service and student credentials
Expected: 400 Bad Request
JUnit: StudentAssignmentIT#studentAssignmentFiltersAndPagingRejectInvalidRanges
Source: src/test/java/com/mentify/tests/assignment/StudentAssignmentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-22 / assignment / PATCH with no fields

Requirement: Empty assignment PATCH is rejected / Level: validation / Priority: medium
Preconditions: Assignment Service and teacher credentials
Expected: 400 Bad Request
JUnit: AssignmentAuthenticationIT#rejectsInvalidAssignmentPayloadBeforeCreation
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-23 / assignment / Reject invalid attempts penalty and rubric shapes

Requirement: Assignment attempt penalty and rubric DTO boundaries / Level: validation / Priority: high
Preconditions: Assignment Service and teacher credentials
Expected: 400 for attempts below 1 penalty above 100 blank rubric criterion and more than 50 rubric items
JUnit: AssignmentAuthenticationIT#rejectsAssignmentAttemptPenaltyAndRubricValidationBoundaries
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-24 / assignment / Preserve rubric on update and PATCH

Requirement: Assignment rubric persistence and partial update / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED plus course/module fixtures
Expected: Create returns ordered rubric criteria and marks; update and PATCH without rubric retain it
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-25 / assignment / Reject missing negative and over-maximum marks

Requirement: Assignment grade DTO marks boundaries / Level: validation / Priority: high
Preconditions: Assignment Service and teacher credentials
Expected: 400 for missing marks and values below 0 or above 100 before submission lookup
JUnit: AssignmentAuthenticationIT#rejectsMissingNegativeAndOverMaximumGradeMarksBeforeLookup
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-26 / assignment / Check student management and self-service routes

Requirement: Student cannot manage assignments / Level: security / Priority: high
Preconditions: Assignment Service and student credentials
Expected: Management create/PATCH returns 403 while student assignment list returns 200
JUnit: AssignmentAuthenticationIT#rejectsStudentAssignmentManagement
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-27 / assignment / Check teacher is denied student-only actions

Requirement: Teacher cannot create student submissions or use student assignment listing / Level: security / Priority: high
Preconditions: Assignment Service and teacher credentials
Expected: Submission creation and student-only assignment list return 403
JUnit: AssignmentAuthenticationIT#rejectsTeacherSubmissionCreation
Source: src/test/java/com/mentify/tests/assignment/AssignmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-28 / assignment / Verify due date and allowed-attempt response values

Requirement: Assignment due-date and attempt settings are persisted / Level: integration / Priority: medium
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED plus course and module fixtures
Expected: Created assignment returns configured due date and allowed-attempt count
JUnit: AssignmentWorkflowIT#teacherCanCreateReadListUpdatePublishCloseAndDeleteAssignment
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-29 / assignment / Try to submit a draft after its due date

Requirement: Late submission is prohibited when assignment policy disables it / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_LATE_SUBMISSION_ID is a draft on a published past-due assignment with late work disabled
Expected: 409 and draft remains unchanged
JUnit: SubmissionWorkflowIT#rejectsSubmittingADraftAfterItsDueDateWhenLateWorkIsDisabled
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-30 / assignment / Try to exceed the configured attempt limit

Requirement: Submission attempt limit is enforced / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_ATTEMPT_LIMIT_ID and configured student already at the limit
Expected: 409 and submission count remains unchanged
JUnit: SubmissionWorkflowIT#rejectsAnAdditionalSubmissionAfterTheConfiguredAttemptLimit
Source: src/test/java/com/mentify/tests/assignment/SubmissionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-011-31 / assignment / Reject rubric marks above maxMarks

Requirement: Rubric total cannot exceed assignment maximum / Level: integration / Priority: high
Preconditions: TEST_ASSIGNMENT_WRITE_ENABLED plus teacher-owned course and module
Expected: 400 before assignment creation
JUnit: AssignmentWorkflowIT#rejectsRubricMarksThatExceedAssignmentMaximum
Source: src/test/java/com/mentify/tests/assignment/AssignmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-01 / assignment / Check anonymous attachment operations

Requirement: Unauthenticated assignment attachment routes reject access / Level: security / Priority: high
Preconditions: Assignment Service
Expected: Unauthenticated assignment attachment list/create/download/delete return 401
JUnit: AssignmentAttachmentAuthenticationIT#rejectsAttachmentAndFileRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-02 / assignment / Check anonymous submission-file operations

Requirement: Unauthenticated submission-file routes reject access / Level: security / Priority: high
Preconditions: Assignment Service
Expected: Unauthenticated submission-file list/create/download/delete return 401
JUnit: AssignmentAttachmentAuthenticationIT#rejectsAttachmentAndFileRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-03 / assignment / Create assignment attachment from configured material

Requirement: Teacher links existing material to assignment / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with assignment/material fixtures
Expected: Attachment returns 201 and references configured Material ID
JUnit: AssignmentAttachmentWorkflowIT#teacherCanCreateListDownloadAndDeleteAssignmentMaterialAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-04 / assignment / Inspect attachment collection and metadata as teacher

Requirement: Teacher lists and downloads assignment attachment / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with assignment/material fixtures
Expected: List and download metadata return 200 and include the created attachment
JUnit: AssignmentAttachmentWorkflowIT#teacherCanCreateListDownloadAndDeleteAssignmentMaterialAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-05 / assignment / Check student attachment list and download access

Requirement: Student can read published assignment attachment / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with enrolled student and assignment/material fixtures
Expected: Student list and download return 200
JUnit: AssignmentAttachmentWorkflowIT#teacherCanCreateListDownloadAndDeleteAssignmentMaterialAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-06 / assignment / Delete test-created assignment attachment

Requirement: Teacher deletes assignment attachment / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with assignment/material fixtures
Expected: Teacher delete returns 200 and test cleanup removes only its attachment
JUnit: AssignmentAttachmentWorkflowIT#teacherCanCreateListDownloadAndDeleteAssignmentMaterialAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-07 / assignment / Check student attachment create denial

Requirement: Student cannot create assignment attachment / Level: security / Priority: high
Preconditions: Assignment Service and student credentials
Expected: Student attachment creation returns 403
JUnit: AssignmentAttachmentAuthenticationIT#rejectsInvalidAttachmentPayloadAndStudentManagement
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-08 / assignment / Create submission file association from configured material

Requirement: Student links material to own draft submission / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with owned draft submission and material fixtures
Expected: Student create returns 201 and references configured material
JUnit: SubmissionFileWorkflowIT#studentCanCreateListDownloadAndDeleteSubmissionMaterialFile
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-09 / assignment / Check submission file list download and deletion

Requirement: Submission file owner and authorized teacher can read and owner deletes / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED with owned draft submission/material fixtures
Expected: Student and teacher read return 200 and student deletion returns 200
JUnit: SubmissionFileWorkflowIT#studentCanCreateListDownloadAndDeleteSubmissionMaterialFile
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-10 / assignment / Check teacher submission-file management denial

Requirement: Teacher cannot create or delete submission files / Level: security / Priority: high
Preconditions: Assignment Service and teacher credentials
Expected: Teacher create and delete return 403
JUnit: AssignmentAttachmentAuthenticationIT#rejectsTeacherSubmissionFileManagement
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-11 / assignment / Submit empty attachment request

Requirement: Invalid assignment attachment payload is rejected / Level: validation / Priority: medium
Preconditions: Assignment Service and teacher credentials
Expected: Teacher receives 400 for empty attachment request
JUnit: AssignmentAttachmentAuthenticationIT#rejectsInvalidAttachmentPayloadAndStudentManagement
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-12 / assignment / Read unknown assignment and attachment identifiers

Requirement: Unknown assignment attachment resources return not found / Level: validation / Priority: medium
Preconditions: Assignment Service with attachment read fixtures
Expected: Unknown assignment and attachment return 404
JUnit: AssignmentAttachmentWorkflowIT#rejectsUnknownAssignmentAttachmentResources
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-13 / assignment / Upload assignment attachment through Material Service

Requirement: Assignment multipart upload workflow and cleanup / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED plus assignment/course fixtures and Material Service
Expected: 201 upload; list and download metadata verified; attachment and test-created Material are deleted
JUnit: AssignmentAttachmentWorkflowIT#teacherCanUploadAndCleanUpSyntheticAssignmentAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-14 / assignment / Upload submission file through Material Service

Requirement: Submission multipart upload workflow and cleanup / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED plus owned draft submission/course fixtures and Material Service
Expected: 201 upload; list and download metadata verified; student deletes file and admin removes test-created Material
JUnit: SubmissionFileWorkflowIT#studentCanUploadAndCleanUpSyntheticSubmissionFile
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-15 / assignment / Reject unauthorized multipart uploads

Requirement: Multipart attachment routes enforce role access / Level: security / Priority: high
Preconditions: Assignment and Material Services
Expected: Anonymous requests return 401; disallowed student/teacher roles return 403
JUnit: AssignmentAttachmentAuthenticationIT#multipartUploadRoutesEnforceAuthenticationAndRoles
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-16 / assignment / Prevent another student reading or deleting submission files

Requirement: Submission-file cross-student ownership / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED plus owned draft submission fixture and distinct secondary student credentials
Expected: Other student receives 403 for list download and delete; owner cleans up synthetic file and Material
JUnit: SubmissionFileWorkflowIT#anotherStudentCannotReadOrDeleteSubmissionFiles
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-17 / assignment / Download unknown file on configured submission

Requirement: Unknown submission-file resource returns not found / Level: validation / Priority: medium
Preconditions: Assignment Service with submission read fixture
Expected: Unknown submission-file ID returns 404
JUnit: SubmissionFileWorkflowIT#rejectsUnknownSubmissionFileResources
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-18 / assignment / Reject unenrolled student listing and downloading attachments

Requirement: Assignment attachment cross-student ownership / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_ASSIGNMENT_ID with an existing attachment plus distinct secondary student not enrolled in its course
Expected: Secondary student receives 403 for list and download
JUnit: AssignmentAttachmentWorkflowIT#rejectsUnenrolledSecondaryStudentFromAssignmentAttachments
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-19 / assignment / Compare signed URL bytes with uploaded synthetic attachment

Requirement: Assignment attachment download byte integrity / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED plus TEST_MATERIAL_DOWNLOAD_BYTES_ENABLED and exact approved storage host
Expected: Downloaded bytes equal the synthetic upload
JUnit: AssignmentAttachmentWorkflowIT#teacherCanUploadAndCleanUpSyntheticAssignmentAttachment
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-20 / assignment / Compare signed URL bytes with uploaded synthetic submission file

Requirement: Submission file download byte integrity / Level: integration / Priority: high
Preconditions: TEST_ATTACHMENT_WRITE_ENABLED plus TEST_MATERIAL_DOWNLOAD_BYTES_ENABLED and exact approved storage host
Expected: Downloaded bytes equal the synthetic upload
JUnit: SubmissionFileWorkflowIT#studentCanUploadAndCleanUpSyntheticSubmissionFile
Source: src/test/java/com/mentify/tests/assignment/SubmissionFileWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-012-21 / assignment / Run all cleanup actions and retain primary failure

Requirement: Attachment cleanup failure handling / Level: unit / Priority: medium
Preconditions: None
Expected: All cleanup actions run and secondary failures are retained as suppressed exceptions
JUnit: CleanupScopeTest#runsRemainingActionsAndRetainsMultipleCleanupFailures
Source: src/test/java/com/mentify/tests/assignment/CleanupScopeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.assignment.CleanupScopeTest.xml

TC-UNIT-ASSIGNMENT-001 / assignment / rejects Missing Assignment Id

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.assignment.AssignmentAttachmentClientTest#rejectsMissingAssignmentId
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.assignment.AssignmentAttachmentClientTest.xml

TC-UNIT-ASSIGNMENT-002 / assignment / rejects Missing Attachment Id

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.assignment.AssignmentAttachmentClientTest#rejectsMissingAttachmentId
Source: src/test/java/com/mentify/tests/assignment/AssignmentAttachmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.assignment.AssignmentAttachmentClientTest.xml

TC-UNIT-ASSIGNMENT-003 / assignment / rejects Null Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.

Attendance

TC-TEST-015-01 / attendance / Teacher creates an open attendance session

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures; Teacher credentials
Expected: HTTP 201; created session has status OPEN and includes the configured enrolled student
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-02 / attendance / Admin creates and retrieves an attendance session

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures; Admin credentials
Expected: Admin creates a session, retrieves it, and cancels it
JUnit: AttendanceAdminIT#adminCanCreateAndRetrieveAttendanceSessionWhenWritesAreEnabled
Source: src/test/java/com/mentify/tests/attendance/AttendanceAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-03 / attendance / Teacher lists course attendance sessions

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures; Teacher credentials
Expected: Session list includes the newly created session for the configured course
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-04 / attendance / Teacher retrieves an attendance session

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures; Teacher credentials
Expected: Session retrieval succeeds and completed status is persisted
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-05 / attendance / Teacher marks one enrolled student

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; configured student enrolled in the approved course
Expected: Single-record mark returns the configured student and LATE status
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-06 / attendance / Teacher marks all enrolled students in a batch

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course with enrolled students
Expected: Batch mark returns records and all supplied statuses are PRESENT
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-07 / attendance / Teacher completes a fully marked session

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures
Expected: Completion returns HTTP 200 and COMPLETED status; subsequent read preserves that status
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-08 / attendance / Teacher cancels an open session

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED; approved course/student fixtures
Expected: Cancellation persists CANCELLED and later completion/mark attempts return 409
JUnit: AttendanceSessionWorkflowIT#teacherCanCancelOpenSessionAndCancelledSessionCannotBeCompleted
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-09 / attendance / Mark after completing a session

Requirement: Completed attendance sessions reject additional marks / Level: integration / Priority: high
Preconditions: Attendance Service plus enrolled-student fixture
Expected: 409 Conflict and no state change
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-10 / attendance / Attempt transitions after cancellation

Requirement: Cancelled attendance sessions reject completion and marks / Level: integration / Priority: high
Preconditions: Attendance Service plus enrolled-student fixture
Expected: 409 Conflict
JUnit: AttendanceSessionWorkflowIT#teacherCanCancelOpenSessionAndCancelledSessionCannotBeCompleted
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-11 / attendance / Complete while records remain NOT_MARKED

Requirement: Incomplete attendance sessions cannot be completed / Level: integration / Priority: high
Preconditions: Attendance Service plus course containing enrolled students
Expected: 409 Conflict and session remains OPEN
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-12 / attendance / Mark out-of-session student and duplicate batch

Requirement: Attendance batch rejects unknown or duplicate student records / Level: integration / Priority: high
Preconditions: Attendance Service plus enrolled-student fixture
Expected: 404 for unknown student and 400 for duplicate student batch
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-13 / attendance / Attempt to submit the initial-only NOT_MARKED value

Requirement: Attendance batch rejects NOT_MARKED as a submitted status / Level: integration / Priority: high
Preconditions: Attendance Service plus enrolled-student fixture
Expected: 400 Bad Request
JUnit: AttendanceSessionWorkflowIT#teacherCanCreateListMarkAndCompleteSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-14 / attendance / Validate student summary aggregates

Requirement: Student summary counts and percentage are internally consistent / Level: integration / Priority: high
Preconditions: Attendance Service and course fixture
Expected: Counts match and percentage is correctly rounded
JUnit: AttendanceSummaryIT#studentCanReadOwnCourseSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceSummaryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-15 / attendance / Validate teacher summary aggregates

Requirement: Teacher student-summary counts and percentage are internally consistent / Level: integration / Priority: high
Preconditions: Attendance Service plus teacher student and course fixtures
Expected: Requested student/course and aggregate arithmetic match
JUnit: AttendanceSummaryIT#teacherCanReadStudentCourseSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceSummaryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-16 / attendance / Reject cross-teacher course access

Requirement: Teacher cannot list sessions for another teacher course / Level: security / Priority: high
Preconditions: Attendance Service; TEST_ATTENDANCE_COURSE_ID owned by primary teacher and distinct secondary teacher credentials
Expected: 403 Forbidden
JUnit: AttendanceAuthenticationIT#teacherCannotListSessionsForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-17 / attendance / Unauthenticated attendance requests are rejected

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Attendance Service; no credentials
Expected: Protected session, marking, transition, and summary routes return HTTP 401
JUnit: AttendanceAuthenticationIT#protectedAttendanceRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-18 / attendance / Student cannot use session management routes

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Attendance Service and Student credentials
Expected: Student receives HTTP 403 for session create/list/read/complete and summary access
JUnit: AttendanceAuthenticationIT#studentCannotManageSessionsOrReadAnotherStudentSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-19 / attendance / Student cannot read another configured student attendance summary

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Distinct TEST_ATTENDANCE_STUDENT_ID and TEST_ATTENDANCE_OTHER_STUDENT_ID; matching Student and SECONDARY_STUDENT credentials; shared known course
Expected: Test verifies both authenticated identities match configured fixtures; Student receives HTTP 403 for the other student summary
JUnit: AttendanceAuthenticationIT#studentCannotReadAnotherStudentsAttendanceSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-20 / attendance / Attendance session creation validates required fields

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Empty session body and invalid course/title fields return HTTP 400
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-21 / attendance / Attendance request rejects malformed UUID input

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Malformed course and student UUID inputs return HTTP 400
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-22 / attendance / Attendance marking rejects an empty record request

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Empty attendance records request returns HTTP 400
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-23 / attendance / Attendance marking rejects missing student ID or status

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Record payload missing studentId or status returns HTTP 400
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-24 / attendance / Unknown session identifiers return not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Unknown session lookup returns HTTP 404
JUnit: AttendanceValidationIT#unknownAttendanceResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-25 / attendance / Unknown course identifiers return not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Listing sessions for an unknown course returns HTTP 404
JUnit: AttendanceValidationIT#unknownAttendanceResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-26 / attendance / Student with no records in a known course receives a zero summary

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: Known TEST_ATTENDANCE_COURSE_ID and TEST_ATTENDANCE_EMPTY_SUMMARY_STUDENT_ID; Student credentials matching that ID
Expected: Response identifies the configured student/course and reports zero session, attendance, and percentage totals
JUnit: AttendanceSummaryIT#studentWithNoAttendanceRecordsReceivesZeroSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceSummaryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-27 / attendance / Attendance rejects overlong session title or record remarks

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: Valid TEST_ATTENDANCE_COURSE_ID and Teacher credentials
Expected: Session title above 150 characters and remarks above 500 characters each return HTTP 400
JUnit: AttendanceValidationIT#rejectsOverlongSessionTitleAndAttendanceRemarks
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-28 / attendance / Invalid attendance status is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Attendance Service and Teacher credentials
Expected: Invalid attendance status returns HTTP 400
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-29 / attendance / Teacher cannot access another teacher course sessions

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Attendance Service; primary-owned course; distinct secondary Teacher credentials
Expected: Secondary teacher receives HTTP 403 for the primary teacher course session list
JUnit: AttendanceAuthenticationIT#teacherCannotListSessionsForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-32 / attendance / Delete a newly created open attendance session

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: medium
Preconditions: TEST_ATTENDANCE_WRITE_ENABLED with TEST_ATTENDANCE_COURSE_ID and TEST_ATTENDANCE_STUDENT_ID; non-production fixtures
Expected: Teacher receives success deleting the newly created session and subsequent read returns 404
JUnit: AttendanceSessionWorkflowIT#teacherCanDeleteAnOpenAttendanceSession
Source: src/test/java/com/mentify/tests/attendance/AttendanceSessionWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-015-33 / attendance / Unknown course or student summary identifiers return not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: Attendance Service and Teacher credentials
Expected: Unknown course and unknown student/course summary requests return HTTP 404
JUnit: AttendanceValidationIT#unknownAttendanceResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-002 / attendance / adminCanReadStudentSummary

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 (role-scoped attendance access) / Level: integration / Priority: high
Preconditions: See AttendanceAdminIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceAdminIT#adminCanReadStudentSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-003 / attendance / adminCanCreateAndRetrieveAttendanceSessionWhenWritesAreEnabled

Requirement: SRS-NOT-EXPLICIT (admin attendance session lifecycle) / Level: integration / Priority: high
Preconditions: See AttendanceAdminIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceAdminIT#adminCanCreateAndRetrieveAttendanceSessionWhenWritesAreEnabled
Source: src/test/java/com/mentify/tests/attendance/AttendanceAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-004 / attendance / protectedAttendanceRequestsRejectMissingAuthentication

Requirement: FR-S033; FR-T038; NFR-SE001 / Level: security / Priority: high
Preconditions: See AttendanceAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceAuthenticationIT#protectedAttendanceRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-005 / attendance / studentCannotManageSessionsOrReadAnotherStudentSummary

Requirement: FR-S033; FR-T038; NFR-SE003 / Level: security / Priority: high
Preconditions: See AttendanceAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceAuthenticationIT#studentCannotManageSessionsOrReadAnotherStudentSummary
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-006 / attendance / rejectsInvalidSessionAndRecordRequests

Requirement: FR-S033; FR-T038 (attendance record validation) / Level: integration / Priority: high
Preconditions: See AttendanceValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceValidationIT#rejectsInvalidSessionAndRecordRequests
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-007 / attendance / unknownAttendanceResourcesReturnNotFound

Requirement: FR-S033; FR-T038 (attendance resource lookup) / Level: integration / Priority: high
Preconditions: See AttendanceValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AttendanceValidationIT#unknownAttendanceResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/attendance/AttendanceValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-067 / attendance / teacherCannotListSessionsForAnotherTeachersCourse

Requirement: FR-S033; FR-T038; NFR-SE003 (attendance course ownership) / Level: security / Priority: high
Preconditions: Distinct secondary teacher and course assigned only to primary teacher
Expected: Secondary teacher receives 403 when listing sessions for the unassigned course
JUnit: AttendanceAuthenticationIT#teacherCannotListSessionsForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/attendance/AttendanceAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-ATTENDANCE-001 / attendance / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.attendance.AttendanceClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/attendance/AttendanceClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.attendance.AttendanceClientTest.xml

TC-UNIT-ATTENDANCE-002 / attendance / client Rejects Blank Identifiers

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.attendance.AttendanceClientTest#clientRejectsBlankIdentifiers
Source: src/test/java/com/mentify/tests/attendance/AttendanceClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.attendance.AttendanceClientTest.xml

TC-UNIT-ATTENDANCE-003 / attendance / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.attendance.AttendanceClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/attendance/AttendanceClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.attendance.AttendanceClientTest.xml

Auth

TC-AUTH-ACCESS-001 / auth / Submit invalid credentials without a bearer token

Requirement: Public login route accepts unauthenticated requests / Level: security / Priority: high
Preconditions: API Gateway and Auth Service
Expected: Login route returns 400 for invalid credentials rather than rejecting the request as unauthenticated
JUnit: AuthorizationIT#shouldAllowPublicAccessWithoutAuthentication
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-ACCESS-002 / auth / Reject protected access without authentication

Requirement: Protected endpoint rejects unauthenticated request / Level: security / Priority: high
Preconditions: Authentication Service
Expected: 401 Unauthorized
JUnit: AuthorizationIT#shouldRejectProtectedAccessWithoutAuthentication
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-CLIENT-001 / auth / Login and construct authenticated API client

Requirement: Successful login creates an authenticated API client / Level: integration / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: Session is authenticated and authenticated API client is available
JUnit: AuthenticationClientIT#shouldLoginAndCreateAnAuthenticatedApiClient
Source: src/test/java/com/mentify/tests/auth/AuthenticationClientIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-JWKS-001 / auth / Read signing-key document

Requirement: Public JWKS endpoint returns signing keys / Level: integration / Priority: high
Preconditions: Auth Service and Gateway
Expected: 200 response with keys array
JUnit: AuthenticationRecoveryIT#shouldExposePublicJwksDocument
Source: src/test/java/com/mentify/tests/auth/AuthenticationRecoveryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-LOGIN-001 / auth / Login using valid Student credentials

Requirement: Valid Student credentials authenticate successfully / Level: integration / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: Authenticated session contains a nonblank access token
JUnit: AuthenticationLoginIT#shouldAuthenticateAStudentWithValidCredentials
Source: src/test/java/com/mentify/tests/auth/AuthenticationLoginIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-LOGIN-002 / auth / Reject invalid password

Requirement: Invalid password is rejected without disclosing it / Level: security / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: 400 Bad Request and response does not echo password
JUnit: AuthenticationLoginIT#shouldRejectAnInvalidPassword
Source: src/test/java/com/mentify/tests/auth/AuthenticationLoginIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-LOGIN-003 / auth / Reject unknown user

Requirement: Unknown account login is rejected / Level: security / Priority: high
Preconditions: Authentication Service
Expected: 400 Bad Request
JUnit: AuthenticationLoginIT#shouldRejectAnUnknownUser
Source: src/test/java/com/mentify/tests/auth/AuthenticationLoginIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-LOGIN-004 / auth / Reject invalid login request

Requirement: Malformed login request is rejected / Level: validation / Priority: high
Preconditions: Authentication Service
Expected: 400 Bad Request
JUnit: AuthenticationLoginIT#shouldRejectAnInvalidLoginRequest
Source: src/test/java/com/mentify/tests/auth/AuthenticationLoginIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-LOGOUT-001 / auth / Clear session after successful logout

Requirement: Logout clears local authentication session / Level: integration / Priority: high
Preconditions: Authentication Service and refresh token included in login response
Expected: Session no longer reports authenticated or refreshable
JUnit: AuthenticationLogoutIT#shouldClearTheSessionAfterSuccessfulLogout
Source: src/test/java/com/mentify/tests/auth/AuthenticationLogoutIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-RECOVERY-001 / auth / Generic reset request

Requirement: Unknown password reset account is not disclosed / Level: security / Priority: high
Preconditions: Auth Service and Gateway
Expected: 200 generic response without supplied account value
JUnit: AuthenticationRecoveryIT#shouldReturnGenericResultForUnknownPasswordResetAccount
Source: src/test/java/com/mentify/tests/auth/AuthenticationRecoveryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-RECOVERY-002 / auth / Reject invalid recovery credentials

Requirement: Invalid password reset OTP/token is rejected / Level: validation / Priority: high
Preconditions: Auth Service and Gateway
Expected: Client error for invalid OTP and token
JUnit: AuthenticationRecoveryIT#shouldRejectInvalidPasswordResetOtpAndToken
Source: src/test/java/com/mentify/tests/auth/AuthenticationRecoveryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-RECOVERY-003 / auth / Verify password reset OTP captured for a synthetic test account

Requirement: NFR-SE004 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; backend SMTP points to local Mailpit
Expected: Captured six-digit OTP verifies with HTTP 200 and yields a nonblank reset token
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-RECOVERY-004 / auth / Reset synthetic test account password with a valid reset token

Requirement: NFR-SE004 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; backend SMTP points to local Mailpit
Expected: Password reset returns HTTP 200 and invalidates the reset token
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-REFRESH-001 / auth / Refresh valid authentication session

Requirement: Valid refresh token refreshes authenticated session / Level: integration / Priority: high
Preconditions: Authentication Service and refresh token included in login response
Expected: Refreshed session is authenticated and has nonblank access token
JUnit: AuthenticationRefreshIT#shouldRefreshAValidAuthenticationSession
Source: src/test/java/com/mentify/tests/auth/AuthenticationRefreshIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-REFRESH-002 / auth / Reject invalid refresh token

Requirement: Invalid refresh token is rejected / Level: security / Priority: high
Preconditions: Authentication Service
Expected: 400 Bad Request
JUnit: AuthenticationRefreshIT#shouldRejectAnInvalidRefreshToken
Source: src/test/java/com/mentify/tests/auth/AuthenticationRefreshIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-ROLE-001 / auth / Allow Student resource access

Requirement: Student can access Student-only resource / Level: security / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: 200 with success status
JUnit: AuthorizationIT#shouldAllowAStudentToUseStudentResources
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-ROLE-002 / auth / Reject Student administrator access

Requirement: Student cannot access administrator resource / Level: security / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: 403 Forbidden
JUnit: AuthorizationIT#shouldRejectAStudentFromAdminResources
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-ROLE-003 / auth / Verify Teacher authorization

Requirement: Teacher can access authenticated resource but not administrator resource / Level: security / Priority: high
Preconditions: Authentication Service and Teacher credentials
Expected: Protected resource returns 200 and administrator resource returns 403
JUnit: AuthorizationIT#shouldAllowATeacherToUseAuthenticatedResourcesButNotAdminResources
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-ROLE-004 / auth / Allow Admin resource access

Requirement: Administrator can access administrator resource / Level: security / Priority: high
Preconditions: Authentication Service and Admin credentials
Expected: 200 with administrator authorization message
JUnit: AuthorizationIT#shouldAllowAnAdminToUseAdminResources
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-AUTH-USER-001 / auth / Read authenticated user profile

Requirement: Authenticated user can read own profile / Level: security / Priority: high
Preconditions: Authentication Service and Student credentials
Expected: 200 response contains profile data
JUnit: AuthorizationIT#shouldAllowAnAuthenticatedUserToReadTheirProfile
Source: src/test/java/com/mentify/tests/auth/AuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-35 / auth / Public JWKS endpoint is available through the Gateway

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: integration / Priority: medium
Preconditions: API Gateway and Auth Service
Expected: Unauthenticated Gateway request returns HTTP 200 and a keys document
JUnit: AuthenticationRecoveryIT#shouldExposePublicJwksDocument
Source: src/test/java/com/mentify/tests/auth/AuthenticationRecoveryIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-AUTH-001 / auth / should Read Role Specific Credentials And Hide Passwords

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationConfigurationTest#shouldReadRoleSpecificCredentialsAndHidePasswords
Source: src/test/java/com/mentify/tests/auth/AuthenticationConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationConfigurationTest.xml

TC-UNIT-AUTH-002 / auth / should Read Super Admin Credentials Separately From Admin

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationConfigurationTest#shouldReadSuperAdminCredentialsSeparatelyFromAdmin
Source: src/test/java/com/mentify/tests/auth/AuthenticationConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationConfigurationTest.xml

TC-UNIT-AUTH-003 / auth / should Reject Incomplete Credential Pairs

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationConfigurationTest#shouldRejectIncompleteCredentialPairs
Source: src/test/java/com/mentify/tests/auth/AuthenticationConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationConfigurationTest.xml

TC-UNIT-AUTH-004 / auth / should Require The Generic Test Credentials When Login Is Requested

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationConfigurationTest#shouldRequireTheGenericTestCredentialsWhenLoginIsRequested
Source: src/test/java/com/mentify/tests/auth/AuthenticationConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationConfigurationTest.xml

TC-UNIT-AUTH-005 / auth / should Support A Separate Second Student Test Account

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationConfigurationTest#shouldSupportASeparateSecondStudentTestAccount
Source: src/test/java/com/mentify/tests/auth/AuthenticationConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationConfigurationTest.xml

TC-UNIT-AUTH-006 / auth / should Expose Only Safe Error Details

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationResponseParserTest#shouldExposeOnlySafeErrorDetails
Source: src/test/java/com/mentify/tests/auth/AuthenticationResponseParserTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationResponseParserTest.xml

TC-UNIT-AUTH-007 / auth / should Parse The Backend Authentication Envelope

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationResponseParserTest#shouldParseTheBackendAuthenticationEnvelope
Source: src/test/java/com/mentify/tests/auth/AuthenticationResponseParserTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationResponseParserTest.xml

TC-UNIT-AUTH-008 / auth / should Clear Tokens Without Exposing Them In Diagnostics

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.auth.AuthenticationSessionTest#shouldClearTokensWithoutExposingThemInDiagnostics
Source: src/test/java/com/mentify/tests/auth/AuthenticationSessionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.auth.AuthenticationSessionTest.xml

Authentication

TC-AUTH-ACCESS-003 / authentication / Reject expired signed access token

Requirement: NFR-SE001; NFR-SE003 / Level: security / Priority: high
Preconditions: User Service; student credentials; AUTH_JWT_PRIVATE_KEY_BASE64 with synthetic key material
Expected: Expired signed access JWT returns 401 and session logout is attempted
JUnit: SecurityRegressionIT#expiredSignedAccessTokenIsRejected
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

Calendar

TC-CAL-001 / calendar / Upcoming event route requires authentication

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Calendar Service; no credentials
Expected: Upcoming events request returns HTTP 401 without authentication
JUnit: CalendarAuthenticationIT#shouldRejectUpcomingCalendarRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-002 / calendar / Event creation route requires authentication

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Calendar Service; no credentials
Expected: Valid event creation request returns HTTP 401 without authentication
JUnit: CalendarAuthenticationIT#shouldRejectEventCreationWithoutAuthentication
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-003 / calendar / Student reads upcoming calendar events

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service and Student credentials
Expected: Authenticated upcoming request returns HTTP 200 and data
JUnit: CalendarAuthenticationIT#shouldAllowAnAuthenticatedStudentToQueryUpcomingEvents
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-004 / calendar / Calendar client constructs with a valid API client

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: medium
Preconditions: No backend required
Expected: Calendar client is created with configured API client
JUnit: CalendarClientTest#shouldCreateClientWithConfiguredApiClient
Source: src/test/java/com/mentify/tests/calendar/CalendarClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.calendar.CalendarClientTest.xml

TC-CAL-005 / calendar / Calendar Service readiness

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: API Gateway, Auth Service, Calendar Service
Expected: Test setup waits for required services and Calendar Service readiness before the request
JUnit: CalendarAuthenticationIT#shouldAllowAnAuthenticatedStudentToQueryUpcomingEvents
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-006 / calendar / Teacher creates a course calendar event

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service; TEST_CALENDAR_COURSE_ID assigned to Teacher
Expected: Teacher creates event successfully and test cleanup cancels it
JUnit: CalendarEventWorkflowIT#shouldAllowTeacherToCreateUpdateAndReadAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-007 / calendar / Admin creates a calendar event

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service and Admin credentials
Expected: Admin event creation returns documented success and cleanup cancels the event
JUnit: CalendarEventWorkflowIT#shouldAllowAdminToCreateAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-008 / calendar / Read calendar events in bounded date range

Requirement: Student event search supplies required date range / Level: integration / Priority: high
Preconditions: Calendar Service and student credentials
Expected: GET includes required start/end timestamps and returns 200 with successful response data
JUnit: CalendarEventWorkflowIT#shouldAllowStudentToRetrieveCalendarEvents
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-009 / calendar / Teacher updates a created event

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service; TEST_CALENDAR_COURSE_ID assigned to Teacher
Expected: Update succeeds and a subsequent read returns the updated title
JUnit: CalendarEventWorkflowIT#shouldAllowTeacherToCreateUpdateAndReadAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-010 / calendar / Teacher cancels a created event

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service; TEST_CALENDAR_COURSE_ID assigned to Teacher
Expected: Cancellation succeeds and cleanup avoids retaining the synthetic event
JUnit: CalendarEventWorkflowIT#shouldAllowTeacherToCancelAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-011 / calendar / Student cannot create events

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Calendar Service and Student credentials
Expected: Student event creation returns HTTP 403
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventCreation
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-012 / calendar / Student cannot update events

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Calendar Service and Student credentials
Expected: Student event update returns HTTP 403
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventUpdate
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-013 / calendar / Student cannot cancel events

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Calendar Service and Student credentials
Expected: Student event cancellation returns HTTP 403
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventCancellation
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-014 / calendar / Event creation validates required fields

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Calendar Service and Teacher credentials
Expected: Missing required event fields return HTTP 400
JUnit: CalendarEventWorkflowIT#shouldRejectInvalidEventRequest
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-015 / calendar / Event creation validates chronological date range

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Calendar Service and Teacher credentials
Expected: End time before start time returns HTTP 400
JUnit: CalendarEventWorkflowIT#shouldRejectEventWithInvalidDateRange
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-016 / calendar / Unknown event identifiers return not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Calendar Service and Teacher credentials
Expected: Unknown event update and detail requests return HTTP 404
JUnit: CalendarEventWorkflowIT#shouldReturnNotFoundForUnknownEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-017 / calendar / Read venue list

Requirement: Venue listing requires authentication / Level: security / Priority: high
Preconditions: Calendar Service and student credentials
Expected: 200 with data; unauthenticated 401 checked separately
JUnit: CalendarVenueAuthorizationIT#shouldAllowAuthenticatedUsersToListVenues
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-018 / calendar / Deny non-admin venue creation

Requirement: Only administrators can create venues / Level: security / Priority: high
Preconditions: Calendar Service and student/teacher credentials
Expected: 401/403 without creating data
JUnit: CalendarVenueAuthorizationIT#shouldRestrictVenueCreationToAdministrators
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-019 / calendar / Reject empty venue fields

Requirement: Venue input is validated / Level: validation / Priority: medium
Preconditions: Calendar Service and admin credentials
Expected: 400 Bad Request
JUnit: CalendarVenueAuthorizationIT#shouldRejectInvalidVenueDataForAdministrator
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-020 / calendar / Create update and retrieve event

Requirement: Teacher can read updated event details / Level: integration / Priority: high
Preconditions: Calendar Service and teacher credentials; disposable event created by test
Expected: Read-after-write returns matching event ID and updated title; event cancelled in cleanup
JUnit: CalendarEventWorkflowIT#shouldAllowTeacherToCreateUpdateAndReadAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-021 / calendar / Get unknown event details

Requirement: Unknown event detail returns not found / Level: validation / Priority: medium
Preconditions: Calendar Service and teacher credentials
Expected: Unknown event detail and update return 404
JUnit: CalendarEventWorkflowIT#shouldReturnNotFoundForUnknownEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-022 / calendar / Reject event search without required date parameters

Requirement: Calendar event search requires date range / Level: integration / Priority: medium
Preconditions: Calendar Service and teacher credentials
Expected: Missing required start/end returns 400; valid bounded search is asserted by TC-CAL-008
JUnit: CalendarEventWorkflowIT#shouldRejectEventSearchWithoutRequiredDateRange
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-023 / calendar / Reject anonymous event detail requests

Requirement: Calendar event detail requires authentication / Level: security / Priority: high
Preconditions: Calendar Service and API Gateway
Expected: 401 Unauthorized
JUnit: CalendarAuthenticationIT#shouldRejectEventDetailsWithoutAuthentication
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-024 / calendar / Reject another teacher reading updating or cancelling an unassigned course event

Requirement: Calendar event access requires creator or assigned course teacher / Level: security / Priority: high
Preconditions: Calendar and Course Services; TEST_CALENDAR_COURSE_ID assigned to primary teacher only; distinct secondary teacher credentials
Expected: 404 for read and 403 for update/cancel; owner cleans up event
JUnit: CalendarEventWorkflowIT#anotherTeacherCannotUpdateOrCancelAnUnassignedCourseEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-025 / calendar / Admin creates a uniquely named venue in a confirmed disposable Calendar database

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_CALENDAR_VENUE_WRITE_ENABLED=true; TEST_CALENDAR_DISPOSABLE_DATABASE_CONFIRMED=true; Admin credentials
Expected: Venue creation returns 201 and appears in the authenticated listing; disposable database is discarded after the run
JUnit: CalendarVenueAuthorizationIT#administratorCanCreateVenueInConfirmedDisposableCalendarDatabase
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-CAL-026 / calendar / Administrator reads the Calendar venue list

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: API Gateway and Calendar Service; administrator credentials
Expected: Authenticated administrator receives HTTP 200 and a data field; read-only request creates no records
JUnit: CalendarVenueAuthorizationIT#administratorCanReadVenueList
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-008 / calendar / shouldRejectUpcomingCalendarRequestsWithoutAuthentication

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 (calendar authentication) / Level: security / Priority: high
Preconditions: See CalendarAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarAuthenticationIT#shouldRejectUpcomingCalendarRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-009 / calendar / shouldRejectEventCreationWithoutAuthentication

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 (calendar authentication) / Level: security / Priority: high
Preconditions: See CalendarAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarAuthenticationIT#shouldRejectEventCreationWithoutAuthentication
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-010 / calendar / shouldAllowAnAuthenticatedStudentToQueryUpcomingEvents

Requirement: SRS-NOT-EXPLICIT (student calendar event query) / Level: security / Priority: high
Preconditions: See CalendarAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarAuthenticationIT#shouldAllowAnAuthenticatedStudentToQueryUpcomingEvents
Source: src/test/java/com/mentify/tests/calendar/CalendarAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-011 / calendar / shouldAllowAdminToCreateAnEvent

Requirement: SRS-NOT-EXPLICIT (custom calendar event creation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: Admin creates a custom event and receives HTTP 201; the test cleans it up
JUnit: CalendarEventWorkflowIT#shouldAllowAdminToCreateAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-012 / calendar / shouldAllowTeacherToCancelAnEvent

Requirement: SRS-NOT-EXPLICIT (custom calendar event cancellation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: Teacher cancels a created custom event successfully
JUnit: CalendarEventWorkflowIT#shouldAllowTeacherToCancelAnEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-013 / calendar / shouldRejectStudentEventCreation

Requirement: NFR-SE003 (student denied teacher event creation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventCreation
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-014 / calendar / shouldRejectStudentEventUpdate

Requirement: NFR-SE003 (student denied event updates) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventUpdate
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-015 / calendar / shouldRejectStudentEventCancellation

Requirement: NFR-SE003 (student denied event cancellation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarEventWorkflowIT#shouldRejectStudentEventCancellation
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-016 / calendar / shouldRejectInvalidEventRequest

Requirement: SRS-NOT-EXPLICIT (calendar input validation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarEventWorkflowIT#shouldRejectInvalidEventRequest
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-017 / calendar / shouldRejectEventWithInvalidDateRange

Requirement: SRS-NOT-EXPLICIT (calendar date-range validation) / Level: integration / Priority: high
Preconditions: See CalendarEventWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarEventWorkflowIT#shouldRejectEventWithInvalidDateRange
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-018 / calendar / shouldRequireAuthenticationToListVenues

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 (venue authentication) / Level: security / Priority: high
Preconditions: See CalendarVenueAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CalendarVenueAuthorizationIT#shouldRequireAuthenticationToListVenues
Source: src/test/java/com/mentify/tests/calendar/CalendarVenueAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-068 / calendar / anotherTeacherCannotUpdateOrCancelAnUnassignedCourseEvent

Requirement: NFR-SE003 (calendar course ownership) / Level: security / Priority: high
Preconditions: Distinct secondary teacher; course assigned only to primary teacher
Expected: Secondary teacher receives 404 for event read and 403 for update/cancellation; owner cleans up the event
JUnit: CalendarEventWorkflowIT#anotherTeacherCannotUpdateOrCancelAnUnassignedCourseEvent
Source: src/test/java/com/mentify/tests/calendar/CalendarEventWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-CALENDAR-001 / calendar / should Create Client With Configured Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.calendar.CalendarClientTest#shouldCreateClientWithConfiguredApiClient
Source: src/test/java/com/mentify/tests/calendar/CalendarClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.calendar.CalendarClientTest.xml

TC-UNIT-CALENDAR-002 / calendar / should Reject Blank Event Id For Update And Cancel

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.calendar.CalendarClientTest#shouldRejectBlankEventIdForUpdateAndCancel
Source: src/test/java/com/mentify/tests/calendar/CalendarClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.calendar.CalendarClientTest.xml

TC-UNIT-CALENDAR-003 / calendar / should Reject Null Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.calendar.CalendarClientTest#shouldRejectNullApiClient
Source: src/test/java/com/mentify/tests/calendar/CalendarClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.calendar.CalendarClientTest.xml

Communication

TC-TEST-016-01 / communication / Communication and required service readiness

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: API Gateway, Auth Service, Communication Service
Expected: JUnit setup verifies required services and Communication Service readiness before the protected-route checks
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-02 / communication / Authenticated user identity is returned by /me

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Communication Service and Student credentials
Expected: Authenticated /me response returns a parseable userId
JUnit: CommunicationAuthenticationIT#authenticatedUserCanReadTheirCommunicationIdentity
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-03 / communication / Communication /me requires authentication

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Communication Service; no credentials
Expected: Unauthenticated /me request returns HTTP 401
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-04 / communication / Reject unauthenticated group operations

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Communication Service
Expected: Protected group operations return 401
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-05 / communication / Reject unauthenticated message operations

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Communication Service
Expected: Protected message operations return 401
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-06 / communication / Reject unauthenticated settings operations

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Communication Service
Expected: Settings operations return 401
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-07 / communication / Create and manage a teacher group

Requirement: FR-S026; FR-S027; FR-T030 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher creates inspects updates and archives/unarchives a group
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-08 / communication / Student cannot create or manage groups

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Communication Service and student credentials
Expected: Student group-management requests return 403
JUnit: CommunicationAuthenticationIT#studentCannotManageGroups
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-09 / communication / Reject invalid group and message requests

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Communication Service and teacher credentials
Expected: Invalid group and message payloads return 400
JUnit: CommunicationValidationIT#invalidRequestsReturnClientErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-10 / communication / List current user's groups

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher receives the created group in the list response
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-11 / communication / Retrieve a created group

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher retrieves the created group
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-12 / communication / List active group members

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher receives group member list
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-13 / communication / Add a student to a group

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED with course and student fixtures
Expected: Teacher successfully adds the configured student
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-14 / communication / Use the course endpoint for course membership

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and course/student fixtures
Expected: Student is added through course membership API
JUnit: CommunicationGroupWorkflowIT#courseMembershipUsesTheCourseEndpoint
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-15 / communication / Archive a group

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher archives the created group
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-16 / communication / Unarchive a group

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Teacher unarchives the created group
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-17 / communication / Unknown group identifiers return not found

Requirement: NFR-SE001 / Level: validation / Priority: medium
Preconditions: Communication Service and teacher credentials
Expected: Unknown group reads return 404
JUnit: CommunicationValidationIT#unknownCommunicationIdsNeverProduceServerErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-18 / communication / Send a message to a group

Requirement: FR-S026; FR-S027 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and active teacher group fixture
Expected: Teacher creates a message and receives its identifier
JUnit: CommunicationMessageWorkflowIT#teacherCanSendPageUpdateAndDeleteMessages
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-19 / communication / Reject invalid message content

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Communication Service and teacher credentials
Expected: Blank or missing message content returns 400
JUnit: CommunicationValidationIT#invalidRequestsReturnClientErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-20 / communication / Read paginated message history

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and active teacher group fixture
Expected: History response includes page size and metadata
JUnit: CommunicationMessageWorkflowIT#teacherCanSendPageUpdateAndDeleteMessages
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-21 / communication / Reject invalid local message pagination

Requirement: NFR-SE001 / Level: unit / Priority: medium
Preconditions: None
Expected: Invalid page and size values are rejected before HTTP request
JUnit: CommunicationClientTest#clientRejectsInvalidIdentifiersAndPagination
Source: src/test/java/com/mentify/tests/communication/CommunicationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.communication.CommunicationClientTest.xml

TC-TEST-016-22 / communication / Update a sent message

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and active teacher group fixture
Expected: Sender updates message content successfully
JUnit: CommunicationMessageWorkflowIT#teacherCanSendPageUpdateAndDeleteMessages
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-23 / communication / Sender deletes own message for self

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED; active group membership; Teacher credentials
Expected: ME delete returns HTTP 200 and the message is absent from the sender history; test cleanup deletes it for everyone
JUnit: CommunicationMessageWorkflowIT#teacherCanDeleteOwnMessageForSelfWithoutHidingItFromOthers
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-24 / communication / Delete a sent message for everyone

Requirement: FR-S026; FR-S027 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and active teacher group fixture
Expected: Sender deletes the synthetic message for everyone
JUnit: CommunicationMessageWorkflowIT#teacherCanSendPageUpdateAndDeleteMessages
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-25 / communication / Unknown message and group identifiers return not found

Requirement: NFR-SE001 / Level: validation / Priority: medium
Preconditions: Communication Service and teacher credentials
Expected: Unknown group/message reads return 404
JUnit: CommunicationValidationIT#unknownCommunicationIdsNeverProduceServerErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-26 / communication / Authenticated user reads own settings

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Communication Service and Student credentials
Expected: Settings response succeeds and the test restores original values after update
JUnit: CommunicationSettingsIT#authenticatedUserCanReadAndUpdateOwnSettings
Source: src/test/java/com/mentify/tests/communication/CommunicationSettingsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-27 / communication / Authenticated user updates own settings

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Communication Service and Student credentials
Expected: Settings update succeeds and prior preferences are restored during cleanup
JUnit: CommunicationSettingsIT#authenticatedUserCanReadAndUpdateOwnSettings
Source: src/test/java/com/mentify/tests/communication/CommunicationSettingsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-28 / communication / Settings changes are isolated by authenticated user

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Distinct Student and SECONDARY_STUDENT credentials
Expected: Changing the primary student setting leaves the secondary student settings unchanged; primary setting is restored
JUnit: CommunicationSettingsIT#settingsChangesAreIsolatedToTheAuthenticatedUser
Source: src/test/java/com/mentify/tests/communication/CommunicationSettingsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-29 / communication / Restrict group management by role

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Communication Service and student credentials
Expected: Student receives 403 for group management
JUnit: CommunicationAuthenticationIT#studentCannotManageGroups
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-32 / communication / Reject anonymous attachment upload and download

Requirement: Message attachment operations require authentication / Level: security / Priority: high
Preconditions: Communication Service
Expected: 401 Unauthorized
JUnit: CommunicationAttachmentAuthenticationIT#shouldRejectUnauthenticatedMessageAttachmentUploadAndDownload
Source: src/test/java/com/mentify/tests/communication/CommunicationAttachmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-33 / communication / Upload link download metadata and cleanup

Requirement: Message attachment lifecycle and cleanup / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED plus active teacher group membership and Material Service
Expected: Attachment is linked to message and metadata is returned; optional byte comparison; message and material cleaned up
JUnit: CommunicationMessageWorkflowIT#shouldUploadAttachDownloadAndCleanUpMessageAttachment
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-34 / communication / Open direct WebSocket and authenticate a STOMP session

Requirement: Communication STOMP CONNECT authenticates teacher access token / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WEBSOCKET_ENABLED=true and teacher credential; Communication Service directly reachable
Expected: Authenticated teacher receives STOMP CONNECTED without creating or mutating data
JUnit: CommunicationWebSocketIT#teacherCanAuthenticateStompWebSocketConnection
Source: src/test/java/com/mentify/tests/communication/CommunicationWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-35 / communication / Update a communication group and verify persisted fields

Requirement: FR-S026; FR-S027; FR-T030; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and teacher-owned course fixture
Expected: Update returns 200 and persisted group name and description match the request
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-36 / communication / Reject unauthenticated STOMP connections through service and Gateway

Requirement: NFR-SE001; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WEBSOCKET_ENABLED=true; Communication Service and API Gateway
Expected: STOMP CONNECT without Authorization does not receive CONNECTED and is rejected by ERROR or connection close
JUnit: CommunicationWebSocketIT#unauthenticatedStompConnectIsRejectedByServiceAndGateway
Source: src/test/java/com/mentify/tests/communication/CommunicationWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-37 / communication / Reject group SEND and SUBSCRIBE when user is not an active member

Requirement: FR-T030; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WEBSOCKET_ENABLED=true; teacher credentials; random non-existent group UUID; Communication Service and API Gateway
Expected: Both membership-protected destinations reject before any group message can be persisted or received
JUnit: CommunicationWebSocketIT#teacherCannotSendOrSubscribeToGroupWithoutMembership
Source: src/test/java/com/mentify/tests/communication/CommunicationWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-38 / communication / Verify authenticated STOMP message delivery directly and through Gateway

Requirement: SRS-NOT-EXPLICIT (WebSocket test echo route); NFR-SE001 / Level: integration / Priority: medium
Preconditions: TEST_COMMUNICATION_WEBSOCKET_ENABLED=true; teacher credentials; Communication Service and API Gateway
Expected: An authenticated test message sent to /app/test is received on /topic/test through both ingress paths
JUnit: CommunicationWebSocketIT#authenticatedTeacherCanSendAndReceiveTestBroadcastDirectlyAndThroughGateway
Source: src/test/java/com/mentify/tests/communication/CommunicationWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-39 / communication / Send and receive a persisted group message over STOMP and clean it up

Requirement: FR-S026; FR-S027; FR-T030; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WEBSOCKET_ENABLED=true; TEST_COMMUNICATION_WRITE_ENABLED=true; TEST_COMMUNICATION_GROUP_ID is a non-production group where the teacher is an active member; API Gateway and Communication Service
Expected: Gateway STOMP message is broadcast with persisted message ID and the test deletes that message for everyone
JUnit: CommunicationWebSocketIT#teacherCanSendPersistedGroupMessageOverGatewayAndCleanItUp
Source: src/test/java/com/mentify/tests/communication/CommunicationWebSocketIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-016-40 / communication / Verify uploaded communication attachment bytes

Requirement: NFR-SE001 / Level: integration / Priority: high
Preconditions: TEST_COMMUNICATION_WRITE_ENABLED and TEST_MATERIAL_DOWNLOAD_BYTES_ENABLED with approved storage host
Expected: Downloaded object bytes match the synthetic message attachment upload
JUnit: CommunicationMessageWorkflowIT#shouldUploadAttachDownloadAndCleanUpMessageAttachment
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-019 / communication / protectedCommunicationRequestsRejectMissingAuthentication

Requirement: FR-S026; FR-S027; FR-T030; NFR-SE001 / Level: security / Priority: high
Preconditions: See CommunicationAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationAuthenticationIT#protectedCommunicationRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-020 / communication / studentCannotManageGroups

Requirement: FR-S026; BR-008; NFR-SE003 / Level: security / Priority: high
Preconditions: See CommunicationAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationAuthenticationIT#studentCannotManageGroups
Source: src/test/java/com/mentify/tests/communication/CommunicationAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-021 / communication / teacherCanCreateInspectManageAndArchiveAGroup

Requirement: FR-T030; BR-008; NFR-SE003 / Level: integration / Priority: high
Preconditions: See CommunicationGroupWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationGroupWorkflowIT#teacherCanCreateInspectManageAndArchiveAGroup
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-022 / communication / courseMembershipUsesTheCourseEndpoint

Requirement: FR-S009; FR-T008; NFR-SE003 / Level: integration / Priority: high
Preconditions: See CommunicationGroupWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationGroupWorkflowIT#courseMembershipUsesTheCourseEndpoint
Source: src/test/java/com/mentify/tests/communication/CommunicationGroupWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-023 / communication / teacherCanSendPageUpdateAndDeleteMessages

Requirement: FR-S027; FR-T030; BR-008 / Level: integration / Priority: high
Preconditions: See CommunicationMessageWorkflowIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationMessageWorkflowIT#teacherCanSendPageUpdateAndDeleteMessages
Source: src/test/java/com/mentify/tests/communication/CommunicationMessageWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-024 / communication / authenticatedUserCanReadAndUpdateOwnSettings

Requirement: SRS-NOT-EXPLICIT (communication preferences/settings) / Level: integration / Priority: high
Preconditions: See CommunicationSettingsIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationSettingsIT#authenticatedUserCanReadAndUpdateOwnSettings
Source: src/test/java/com/mentify/tests/communication/CommunicationSettingsIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-025 / communication / invalidRequestsReturnClientErrors

Requirement: FR-S026; FR-S027; FR-T030 (validation of communication requests) / Level: integration / Priority: high
Preconditions: See CommunicationValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationValidationIT#invalidRequestsReturnClientErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-026 / communication / unknownCommunicationIdsNeverProduceServerErrors

Requirement: FR-S026; FR-S027; FR-T030 (unknown communication-resource handling) / Level: integration / Priority: high
Preconditions: See CommunicationValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CommunicationValidationIT#unknownCommunicationIdsNeverProduceServerErrors
Source: src/test/java/com/mentify/tests/communication/CommunicationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-COMMUNICATION-001 / communication / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.communication.CommunicationClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/communication/CommunicationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.communication.CommunicationClientTest.xml

TC-UNIT-COMMUNICATION-002 / communication / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.communication.CommunicationClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/communication/CommunicationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.communication.CommunicationClientTest.xml

Contracts

TC-UNIT-CONTRACTS-001 / contracts / contract Validation Is Disabled By Default

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.contracts.ContractConfigurationTest#contractValidationIsDisabledByDefault
Source: src/test/java/com/mentify/tests/contracts/ContractConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.contracts.ContractConfigurationTest.xml

TC-UNIT-CONTRACTS-002 / contracts / strict Contract Options Are Read From External Configuration

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.contracts.ContractConfigurationTest#strictContractOptionsAreReadFromExternalConfiguration
Source: src/test/java/com/mentify/tests/contracts/ContractConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.contracts.ContractConfigurationTest.xml

Course

TC-COURSE-001 / course / Course Service readiness before integration request

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: API Gateway, Auth Service, Course Service, Teacher credentials
Expected: Course test setup verifies Course Service readiness before the authenticated root request
JUnit: CourseServiceRootIT#authenticatedUserCanReadCourseServiceRootGreeting
Source: src/test/java/com/mentify/tests/course/CourseServiceRootIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-002 / course / Read teacher's assigned courses

Requirement: Teacher retrieves assigned courses / Level: integration / Priority: high
Preconditions: Course Service and teacher credentials
Expected: 200 with success status and data
JUnit: CourseAuthenticationIT#shouldAllowTeacherToReadAssignedCourses
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-003 / course / Look up an unknown course as student

Requirement: Student performs course lookup / Level: security / Priority: medium
Preconditions: Course Service and student credentials
Expected: 404 for unknown course proves student lookup is allowed rather than role denied
JUnit: CourseAuthenticationIT#shouldAllowStudentToUseCourseLookup
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-004 / course / List courses as administrator

Requirement: Admin retrieves all courses / Level: integration / Priority: high
Preconditions: Course Service and admin credentials
Expected: 200 with success status and data
JUnit: CourseAuthenticationIT#shouldAllowAdminToReadAllCourses
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-005 / course / Request course list without credentials

Requirement: Unauthenticated course list / Level: security / Priority: high
Preconditions: Course Service
Expected: 401 Unauthorized
JUnit: CourseAuthenticationIT#shouldRejectCourseListWithoutAuthentication
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-006 / course / Request assigned courses without credentials

Requirement: Unauthenticated teacher courses / Level: security / Priority: high
Preconditions: Course Service
Expected: 401 Unauthorized
JUnit: CourseAuthenticationIT#shouldRejectTeacherCoursesWithoutAuthentication
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-007 / course / Deny student access to full course list

Requirement: Student reads all courses / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden
JUnit: CourseAuthenticationIT#shouldRejectStudentFromReadingAllCourses
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-008 / course / Deny teacher access to full course list

Requirement: Teacher reads all courses / Level: security / Priority: high
Preconditions: Course Service and teacher credentials
Expected: 403 Forbidden
JUnit: CourseAuthenticationIT#shouldRejectTeacherFromReadingAllCourses
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-009 / course / Deny student course creation

Requirement: Student creates a course / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden before persistence
JUnit: CourseAuthenticationIT#shouldRejectStudentFromCreatingACourse
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-010 / course / Check backend teacher course-create permission without creating data

Requirement: Teacher reaches course creation / Level: security / Priority: medium
Preconditions: Course Service and teacher credentials
Expected: Request reaches validation/lookup and returns 404 for configured unknown grade rather than role-denied 403
JUnit: CourseAuthenticationIT#shouldAllowTeacherRoleToReachCourseCreation
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-011 / course / Deny student course deletion

Requirement: Student deletes a course / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden before persistence
JUnit: CourseAuthenticationIT#shouldRejectStudentFromDeletingACourse
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-012 / course / Deny student bulk course lookup

Requirement: Student performs bulk lookup / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden
JUnit: CourseAuthenticationIT#shouldRejectStudentFromBulkCourseLookup
Source: src/test/java/com/mentify/tests/course/CourseAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-013 / course / Course client construction with configured API client

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: medium
Preconditions: No backend required
Expected: Course client is instantiated with the valid configured API client
JUnit: CourseClientTest#shouldCreateClientWithConfiguredApiClient
Source: src/test/java/com/mentify/tests/course/CourseClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.course.CourseClientTest.xml

TC-COURSE-014 / course / Course service environment URL configuration

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: medium
Preconditions: Deterministic environment map; no backend required
Expected: Configured Course Service URL and required-service list are parsed correctly
JUnit: TestEnvironmentConfigurationTest#shouldParseCourseServiceConfigurationWhenCourseTestingIsEnabled
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-COURSE-015 / course / Create and clean up a synthetic course

Requirement: Admin creates a course / Level: integration / Priority: high
Preconditions: Course Service; TEST_COURSE_GRADE_ID and TEST_COURSE_TEACHER_ID
Expected: 201 with created course ID and test-created course deleted
JUnit: CourseCrudIT#shouldCreateCourseAsAdmin
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-016 / course / Create then read and update a synthetic course

Requirement: Admin reads and updates a course / Level: integration / Priority: high
Preconditions: Course Service; TEST_COURSE_GRADE_ID and TEST_COURSE_TEACHER_ID
Expected: Created course is readable and updated name persists; test-created course deleted
JUnit: CourseCrudIT#shouldReadAndUpdateCreatedCourseAsAdmin
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-017 / course / Read a created course as student and teacher

Requirement: Student and teacher lookup / Level: integration / Priority: high
Preconditions: Course Service; TEST_COURSE_GRADE_ID and TEST_COURSE_TEACHER_ID
Expected: Both roles receive 200 and the matching course ID; course deleted by admin
JUnit: CourseCrudIT#shouldAllowStudentAndTeacherToLookupCreatedCourse
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-018 / course / Find created course by administrator bulk lookup

Requirement: Admin bulk lookup / Level: integration / Priority: high
Preconditions: Course Service; TEST_COURSE_GRADE_ID and TEST_COURSE_TEACHER_ID
Expected: 200 result contains created course ID; course deleted by admin
JUnit: CourseCrudIT#shouldFindCreatedCourseByBulkLookupAsAdmin
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-019 / course / Delete created course and verify it is not found

Requirement: Admin deletes a course / Level: integration / Priority: high
Preconditions: Course Service; TEST_COURSE_GRADE_ID and TEST_COURSE_TEACHER_ID
Expected: Delete returns 200 and subsequent read returns 404
JUnit: CourseCrudIT#shouldDeleteCreatedCourseAsAdmin
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-020 / course / Reject empty course creation payload

Requirement: Admin submits invalid course data / Level: validation / Priority: medium
Preconditions: Course Service and admin credentials
Expected: 400 Bad Request
JUnit: CourseCrudIT#shouldRejectInvalidCoursePayloadAsAdmin
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-021 / course / Read unknown course ID

Requirement: Admin reads an unknown course / Level: validation / Priority: medium
Preconditions: Course Service and admin credentials
Expected: 404 Not Found
JUnit: CourseCrudIT#shouldReturnNotFoundForUnknownCourse
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-022 / course / Read dashboard

Requirement: Teacher portal dashboard is available to teachers / Level: integration / Priority: high
Preconditions: Course Service and teacher credentials
Expected: 200 success response with data
JUnit: TeacherPortalAuthorizationIT#shouldAllowTeacherToReadDashboardAndSearch
Source: src/test/java/com/mentify/tests/course/TeacherPortalAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-023 / course / Search portal records

Requirement: Teacher portal search is available to teachers / Level: integration / Priority: high
Preconditions: Course Service and teacher credentials
Expected: 200 success response with data
JUnit: TeacherPortalAuthorizationIT#shouldAllowTeacherToReadDashboardAndSearch
Source: src/test/java/com/mentify/tests/course/TeacherPortalAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-024 / course / Unauthenticated dashboard and search

Requirement: Teacher portal protected reads require authentication / Level: security / Priority: high
Preconditions: Course Service
Expected: 401 Unauthorized
JUnit: TeacherPortalAuthorizationIT#shouldRejectUnauthenticatedDashboardAndSearch
Source: src/test/java/com/mentify/tests/course/TeacherPortalAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-025 / course / Student denied on teacher routes

Requirement: Teacher portal reads reject student role / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden
JUnit: TeacherPortalAuthorizationIT#shouldRejectStudentFromTeacherPortalReads
Source: src/test/java/com/mentify/tests/course/TeacherPortalAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-026 / course / Validate portal identifiers and query

Requirement: Teacher portal client rejects missing required inputs / Level: unit / Priority: medium
Preconditions: None
Expected: IllegalArgumentException for blank values
JUnit: CourseClientTest#shouldRejectBlankCourseIdForLookupUpdateAndDelete
Source: src/test/java/com/mentify/tests/course/CourseClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.course.CourseClientTest.xml

TC-COURSE-027 / course / Student denied course content mutations

Requirement: Students cannot write course content / Level: security / Priority: high
Preconditions: Course Service and student credentials
Expected: 403 Forbidden for all tested mutation routes
JUnit: CourseServiceAuthorizationMatrixIT#shouldDenyStudentAllCourseContentMutations
Source: src/test/java/com/mentify/tests/course/CourseServiceAuthorizationMatrixIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-028 / course / Teacher denied grade and monthly fee administration

Requirement: Grade administration is restricted to admins / Level: security / Priority: high
Preconditions: Course Service and teacher credentials
Expected: 403 Forbidden for all grade administration routes
JUnit: CourseServiceAuthorizationMatrixIT#shouldRestrictGradeAdministrationToAdministrators
Source: src/test/java/com/mentify/tests/course/CourseServiceAuthorizationMatrixIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-029 / course / Unauthenticated protected-route checks

Requirement: Course content and grade routes require authentication / Level: security / Priority: high
Preconditions: Course Service
Expected: 401 Unauthorized
JUnit: CourseServiceAuthorizationMatrixIT#shouldRequireAuthenticationForCourseContentAndGradeAdministration
Source: src/test/java/com/mentify/tests/course/CourseServiceAuthorizationMatrixIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-030 / course / Student success and teacher denial

Requirement: Announcement and progress routes follow student-role rules / Level: security / Priority: high
Preconditions: Course Service and student/teacher credentials
Expected: Student succeeds and teacher is denied
JUnit: CourseServiceAuthorizationMatrixIT#shouldKeepStudentProgressAndAnnouncementsStudentOnly
Source: src/test/java/com/mentify/tests/course/CourseServiceAuthorizationMatrixIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-031 / course / Read directory summary gradebook and analytics

Requirement: Teacher portal data endpoints return configured course data / Level: integration / Priority: high
Preconditions: Course Service teacher-owned course enrolled student
Expected: 200 successful response with data
JUnit: TeacherPortalDataIT#shouldReturnDirectorySummaryGradebookAndAnalyticsForConfiguredCourse
Source: src/test/java/com/mentify/tests/course/TeacherPortalDataIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-032 / course / Module and lesson CRUD lifecycle

Requirement: Teacher can manage course modules and lessons / Level: integration / Priority: high
Preconditions: Course Service and teacher-owned course
Expected: Created lesson and module are read updated and cleaned up
JUnit: CourseContentWorkflowIT#shouldCreateReadUpdateAndDeleteModuleAndLesson
Source: src/test/java/com/mentify/tests/course/CourseContentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-033 / course / Learning material reference CRUD lifecycle

Requirement: Teacher can manage course learning-material references / Level: integration / Priority: high
Preconditions: Course Service and teacher-owned course
Expected: Created material lesson and module are read updated and cleaned up
JUnit: CourseContentWorkflowIT#shouldCreateReadUpdateAndDeleteLearningMaterialReferences
Source: src/test/java/com/mentify/tests/course/CourseContentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-034 / course / Grade and monthly fee CRUD lifecycle

Requirement: Administrator can manage grades and monthly fees / Level: integration / Priority: high
Preconditions: Course Service and TEST_COURSE_GRADE_WRITE_ENABLED=true
Expected: Created grade and fee are cleaned up
JUnit: CourseGradeWorkflowIT#shouldManageGradeAndMonthlyFeeThenDeleteCreatedRecords
Source: src/test/java/com/mentify/tests/course/CourseGradeWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-035 / course / Student self-service routes and role validation

Requirement: Students can read their announcements and progress / Level: integration / Priority: high
Preconditions: Course Service and student credentials
Expected: 200 successful data response
JUnit: CourseAnnouncementsProgressIT#shouldAllowStudentsToReadOwnAnnouncementsAndProgress
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-036 / course / Course-specific progress read

Requirement: Enrolled students can read course progress / Level: integration / Priority: high
Preconditions: Course Service and TEST_STUDENT_PROGRESS_COURSE_ID
Expected: 200 with matching course ID and progress data
JUnit: CourseAnnouncementsProgressIT#shouldReadProgressForAnEnrolledStudentCourseFixture
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-037 / course / Announcement create success

Requirement: Teacher creates course announcement / Level: integration / Priority: medium
Preconditions: TEST_COURSE_ANNOUNCEMENT_WRITE_ENABLED and TEST_TEACHER_PORTAL_COURSE_ID
Expected: 201 with course and title; persistent synthetic record
JUnit: CourseAnnouncementsProgressIT#shouldCreateAnnouncementForApprovedTeacherCourseFixture
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-038 / course / Student lesson progress update and restore

Requirement: Student updates lesson completion / Level: integration / Priority: medium
Preconditions: TEST_STUDENT_PROGRESS_WRITE_ENABLED plus enrolled course and lesson fixture IDs
Expected: 200 with lesson/course and progress; prior completion restored
JUnit: CourseAnnouncementsProgressIT#shouldUpdateAndRestoreLessonProgressForApprovedStudentFixture
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-039 / course / Cross-service course content file upload

Requirement: Teacher uploads module and lesson materials / Level: integration / Priority: high
Preconditions: TEST_COURSE_CONTENT_UPLOAD_WRITE_ENABLED plus teacher-owned course and Course/Material services
Expected: Uploaded files are associated with module/lesson/course and synthetic records are cleaned up
JUnit: CourseContentWorkflowIT#shouldUploadModuleAndLessonMaterialsAndAssociateThemAcrossServices
Source: src/test/java/com/mentify/tests/course/CourseContentWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-040 / course / Teacher portal wrong-course denial

Requirement: Teacher portal enforces course ownership / Level: integration / Priority: high
Preconditions: TEST_TEACHER_PORTAL_UNOWNED_COURSE_ID for another teacher's course
Expected: 403 Forbidden for each teacher portal course read
JUnit: TeacherPortalDataIT#shouldDenyTeacherAnalyticsAndGradebookForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/course/TeacherPortalDataIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-041 / course / Analytics input boundary validation

Requirement: Teacher analytics validates period and date range / Level: integration / Priority: medium
Preconditions: Teacher-owned TEST_TEACHER_PORTAL_COURSE_ID
Expected: Valid range returns 200; invalid period and inverted range return 400
JUnit: TeacherPortalDataIT#shouldValidateAnalyticsPeriodsAndDateRanges
Source: src/test/java/com/mentify/tests/course/TeacherPortalDataIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-042 / course / Reject cross-owner module lesson and learning-material mutations

Requirement: Teacher cannot mutate another teacher's course content / Level: integration / Priority: high
Preconditions: TEST_COURSE_CONTENT_OWNERSHIP_WRITE_ENABLED plus valid unowned course module lesson and learning-material IDs
Expected: All create update and delete operations return 403 without mutating foreign records
JUnit: TeacherCourseContentOwnershipIT#teacherCannotMutateAnotherTeachersCourseContent
Source: src/test/java/com/mentify/tests/course/TeacherCourseContentOwnershipIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-043 / course / Exercise wrong-role and malformed announcement/progress requests

Requirement: Announcement and progress role and validation boundaries / Level: security / Priority: high
Preconditions: Course Service with teacher and student credentials
Expected: Forbidden role operations return 403 and invalid request bodies return 400
JUnit: CourseAnnouncementsProgressIT#shouldRejectAnnouncementAndProgressOperationsForWrongRoles
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-044 / course / Reject invalid announcement page and size locally

Requirement: Announcement pagination client bounds / Level: validation / Priority: medium
Preconditions: Student credentials
Expected: Negative page and size above the maximum throw IllegalArgumentException before an HTTP request
JUnit: CourseAnnouncementsProgressIT#shouldValidateAnnouncementPaginationBeforeCallingService
Source: src/test/java/com/mentify/tests/course/CourseAnnouncementsProgressIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-045 / course / Read the course service root greeting

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: low
Preconditions: Course Service and Auth Service directly reachable; teacher credentials
Expected: Authenticated direct-service request returns HTTP 200 and Mentify Backend greeting
JUnit: CourseServiceRootIT#authenticatedUserCanReadCourseServiceRootGreeting
Source: src/test/java/com/mentify/tests/course/CourseServiceRootIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-046 / course / List public marketplace materials

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: Course Service and API Gateway
Expected: Anonymous request returns a successful paginated marketplace response
JUnit: MarketplaceProductIT#anonymousUserCanListMarketplaceProducts
Source: src/test/java/com/mentify/tests/course/MarketplaceProductIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-047 / course / Read a published marketplace product

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MARKETPLACE_PRODUCT_ID points to a published non-production product
Expected: Anonymous request returns the selected product details
JUnit: MarketplaceProductIT#anonymousUserCanReadAConfiguredPublishedProduct
Source: src/test/java/com/mentify/tests/course/MarketplaceProductIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-048 / course / Administrator lists marketplace products

Requirement: NFR-SE003 / Level: security / Priority: medium
Preconditions: Course Service and admin credentials
Expected: Administrator receives a paginated product list
JUnit: MarketplaceProductIT#administratorCanListMarketplaceProducts
Source: src/test/java/com/mentify/tests/course/MarketplaceProductIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-049 / course / Create update publish and archive a marketplace product

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MARKETPLACE_WRITE_ENABLED=true; non-production Course and Material services with upload storage available
Expected: Admin creates a product from synthetic uploaded material; update and status transitions succeed; product is archived and material cleanup is attempted
JUnit: MarketplaceProductIT#administratorCanCreateUpdatePublishAndArchiveMarketplaceProduct
Source: src/test/java/com/mentify/tests/course/MarketplaceProductIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-050 / course / Teacher creates reads and updates an owned course

Requirement: Course lifecycle and teacher ownership / Level: integration / Priority: high
Preconditions: TEST_COURSE_GRADE_ID plus teacher/admin credentials
Expected: Teacher-owned synthetic course is created read updated and deleted by admin cleanup
JUnit: CourseCrudIT#shouldAllowTeacherToCreateReadAndUpdateOwnedCourse
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-COURSE-051 / course / Reject teacher reads and updates on another teacher's course

Requirement: Course authorization and ownership / Level: security / Priority: high
Preconditions: TEST_TEACHER_PORTAL_UNOWNED_COURSE_ID plus teacher/admin credentials
Expected: GET and PUT return 403 and admin confirms the foreign course is unchanged
JUnit: CourseCrudIT#shouldDenyTeacherFromReadingOrUpdatingAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/course/CourseCrudIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-COURSE-001 / course / should Create Client With Configured Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.course.CourseClientTest#shouldCreateClientWithConfiguredApiClient
Source: src/test/java/com/mentify/tests/course/CourseClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.course.CourseClientTest.xml

TC-UNIT-COURSE-002 / course / should Reject Null Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.course.CourseClientTest#shouldRejectNullApiClient
Source: src/test/java/com/mentify/tests/course/CourseClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.course.CourseClientTest.xml

E2E

TC-E2E-001 / e2e / Complete student teacher and admin platform journey through the API Gateway

Requirement: SRS-NOT-EXPLICIT; NFR-SE001; NFR-SE003 / Level: e2e / Priority: high
Preconditions: TEST_E2E_ENABLED=true; TEST_E2E_WRITE_ENABLED=true; TEST_E2E_COURSE_GRADE_ID; student teacher and admin credentials; Gateway plus Course Enrollment Assignment Material Payment Notification services
Expected: Teacher creates a course lesson assignment and quiz and uploads material; student enrolls accesses lesson downloads material submits assignment and quiz; teacher grades assignment and reads quiz result; admin reads user course payment and notification data; temporary course/enrollment/module/lesson/material/quiz are deleted; assignment is archived and its graded submission remains because no delete API exists
JUnit: CompleteWorkflowIT#studentTeacherAndAdminCompleteCrossServiceWorkflowsThroughGateway
Source: src/test/java/com/mentify/tests/e2e/CompleteWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-027 / e2e / studentCourseAndEnrollmentIdentifiersRemainConsistentThroughGateway

Requirement: FR-S007; FR-S008; FR-S009; BR-001 / Level: e2e / Priority: high
Preconditions: See CourseEnrollmentJourneyIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CourseEnrollmentJourneyIT#studentCourseAndEnrollmentIdentifiersRemainConsistentThroughGateway
Source: src/test/java/com/mentify/tests/e2e/CourseEnrollmentJourneyIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-028 / e2e / gatewayPreservesRoleRestrictionsAcrossUserAndEnrollmentServices

Requirement: FR-A002; BR-005; NFR-SE003 / Level: security / Priority: high
Preconditions: See CrossServiceAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: CrossServiceAuthorizationIT#gatewayPreservesRoleRestrictionsAcrossUserAndEnrollmentServices
Source: src/test/java/com/mentify/tests/e2e/CrossServiceAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-029 / e2e / authenticatedUserTravelsThroughGatewayToUserService

Requirement: FR-S002; FR-T002; NFR-SE001 / Level: e2e / Priority: high
Preconditions: See GatewaySmokeIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: GatewaySmokeIT#authenticatedUserTravelsThroughGatewayToUserService
Source: src/test/java/com/mentify/tests/e2e/GatewaySmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-030 / e2e / missingGatewayTokenIsRejected

Requirement: FR-S002; FR-T002; NFR-SE001 / Level: e2e / Priority: high
Preconditions: See GatewaySmokeIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: GatewaySmokeIT#missingGatewayTokenIsRejected
Source: src/test/java/com/mentify/tests/e2e/GatewaySmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-031 / e2e / paymentNotificationAndLearningProviderJourneysRequireExplicitFixtures

Requirement: SRS-NOT-EXPLICIT (provider journeys; payment is not specified and the notification journey is not exercised by this fixture guard) / Level: e2e / Priority: high
Preconditions: See ProviderJourneyIT test configuration
Expected: The test skips unless approved provider fixtures are enabled; it does not assert provider-journey behavior
JUnit: ProviderJourneyIT#paymentNotificationAndLearningProviderJourneysRequireExplicitFixtures
Source: src/test/java/com/mentify/tests/e2e/ProviderJourneyIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-069 / e2e / studentCanFollowEnrolledCourseThroughLessonAssignmentQuizAndGradedResult

Requirement: FR-S007; FR-S008; FR-S009; SRS-NOT-EXPLICIT (lesson-to-assignment-to-quiz and graded-result journey) / Level: e2e / Priority: high
Preconditions: TEST_E2E_ENABLED=true; student credential; course/module/lesson/assignment/published quiz/graded submission fixtures; Gateway, Course, Enrollment, Assignment services
Expected: Student identity and enrollment are verified across services; course lesson, assignment, quiz, and the same assignment's graded submission are readable through Gateway
JUnit: StudentLearningJourneyIT#studentCanFollowEnrolledCourseThroughLessonAssignmentQuizAndGradedResult
Source: src/test/java/com/mentify/tests/e2e/StudentLearningJourneyIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-070 / e2e / teacherCanFollowOwnedCourseFromLessonAndMaterialToAssignmentGrade

Requirement: SRS-NOT-EXPLICIT (teacher-owned course content and assignment grading E2E journey) / Level: e2e / Priority: high
Preconditions: TEST_E2E_ENABLED=true; teacher credential; owned course/module/lesson/material/assignment/graded submission fixtures; Gateway, Course, Material, Assignment services
Expected: Teacher can follow owned course content through the persisted assignment grade without mutating fixture data
JUnit: TeacherCourseJourneyIT#teacherCanFollowOwnedCourseFromLessonAndMaterialToAssignmentGrade
Source: src/test/java/com/mentify/tests/e2e/TeacherCourseJourneyIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-071 / e2e / administratorCanReviewUsersCoursesPaymentsAndNotificationsThroughGateway

Requirement: FR-A002; BR-005; NFR-SE003 (admin operations across Gateway services) / Level: e2e / Priority: high
Preconditions: TEST_E2E_ENABLED=true; admin credential; Gateway, User, Course, Payment, Notification services
Expected: Administrator receives successful responses for user, course, payment, and notification operations through Gateway
JUnit: AdminOperationsJourneyIT#administratorCanReviewUsersCoursesPaymentsAndNotificationsThroughGateway
Source: src/test/java/com/mentify/tests/e2e/AdminOperationsJourneyIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-E2E-001 / e2e / end To End Configuration Can Be Loaded

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.e2e.EndToEndClientTest#endToEndConfigurationCanBeLoaded
Source: src/test/java/com/mentify/tests/e2e/EndToEndClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.e2e.EndToEndClientTest.xml

TC-UNIT-E2E-002 / e2e / Keep write journeys disabled by default

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic configuration test
Expected: Write and provider-backed E2E workflows remain disabled when their opt-in environment variables are absent
JUnit: EndToEndClientTest#writeJourneysAreDisabledUnlessExplicitlyEnabled
Source: src/test/java/com/mentify/tests/e2e/EndToEndClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.e2e.EndToEndClientTest.xml

TC-UNIT-E2E-003 / e2e / Load explicit write journey configuration

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic configuration test
Expected: Explicit E2E write opt-in and grade fixture settings are loaded from configuration
JUnit: EndToEndClientTest#loadsExplicitWriteJourneyConfiguration
Source: src/test/java/com/mentify/tests/e2e/EndToEndClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.e2e.EndToEndClientTest.xml

Enrollment

TC-TEST-010-01 / enrollment / Self-enroll with free course

Requirement: Student self-enrollment creates pending enrollment / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and verified free TEST_ENROLLMENT_FREE_COURSE_ID
Expected: 201 pending enrollment membership true and created record deleted
JUnit: EnrollmentAuthenticationIT#shouldSupportStudentSelfEnrollmentWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-02 / enrollment / Own course list

Requirement: Student reads own active course IDs / Level: integration / Priority: medium
Preconditions: Enrollment read fixtures and student credentials
Expected: 200 with data
JUnit: EnrollmentAuthenticationIT#shouldAllowStudentToReadOwnActiveCourseIds
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-03 / enrollment / Existing membership across roles

Requirement: Enrollment membership checks / Level: integration / Priority: medium
Preconditions: Enrollment read fixtures
Expected: Configured existing membership is true for student teacher admin and super admin
JUnit: EnrollmentAuthenticationIT#shouldAllowStudentTeacherAndAdminToCheckMembership
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-04 / enrollment / Admin enrollment lifecycle

Requirement: Admin creates enrollment with selected status / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and unused alternate course
Expected: 201 pending enrollment and cleanup
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-05 / enrollment / Admin active enrollment list

Requirement: Admin lists active enrollments / Level: integration / Priority: medium
Preconditions: Enrollment Service and admin credentials
Expected: 200 with data
JUnit: EnrollmentAuthenticationIT#shouldAllowAdminToListActiveAndUnenrolledStudents
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-06 / enrollment / Pending approved rejected transitions

Requirement: Admin updates enrollment status / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and unused alternate course
Expected: 200 for each requested status
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-07 / enrollment / Teacher course enrollment reads

Requirement: Teacher reads course student and enrollment lists / Level: integration / Priority: high
Preconditions: Owned course fixture and teacher credentials
Expected: 200 student IDs and active enrollment records
JUnit: EnrollmentAuthenticationIT#shouldAllowTeacherToListStudentsByCourse
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-08 / enrollment / Unenrolled student listing

Requirement: Admin lists unenrolled students / Level: integration / Priority: medium
Preconditions: Enrollment Service and admin credentials
Expected: 200 with data
JUnit: EnrollmentAuthenticationIT#shouldAllowAdminToListActiveAndUnenrolledStudents
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-09 / enrollment / Deny student and teacher management actions

Requirement: Enrollment management role restrictions / Level: security / Priority: high
Preconditions: Enrollment Service and student/teacher/admin credentials
Expected: Restricted management operations return documented 403/404 responses
JUnit: EnrollmentAuthenticationIT#shouldRejectStudentsAndTeachersFromManagingEnrollments
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-10 / enrollment / Protected endpoint matrix

Requirement: Enrollment routes require authentication / Level: security / Priority: high
Preconditions: Enrollment Service
Expected: 401 for protected endpoints
JUnit: EnrollmentAuthenticationIT#shouldRejectProtectedEndpointsWithoutAuthentication
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-11 / enrollment / Invalid create update and self-enroll payloads

Requirement: Enrollment input validation / Level: validation / Priority: medium
Preconditions: Enrollment Service and admin/student credentials
Expected: 400 client errors
JUnit: EnrollmentAuthenticationIT#shouldRejectInvalidEnrollmentRequests
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-12 / enrollment / Unknown enrollment identifiers

Requirement: Unknown enrollment update and deletion / Level: integration / Priority: medium
Preconditions: Enrollment Service and admin credentials
Expected: Not found or client error without 5xx
JUnit: EnrollmentAuthenticationIT#shouldReturnNotFoundForUnknownEnrollmentUpdate
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-13 / enrollment / Unknown student course pair

Requirement: Unknown membership returns false / Level: integration / Priority: low
Preconditions: Enrollment Service and admin credentials
Expected: 200 false
JUnit: EnrollmentAuthenticationIT#shouldReturnFalseForUnknownMembershipCombination
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-14 / enrollment / Client path validation

Requirement: Enrollment API client rejects invalid IDs / Level: unit / Priority: low
Preconditions: None
Expected: IllegalArgumentException for blank identifiers
JUnit: EnrollmentClientTest#shouldRejectBlankPathIdentifiers
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.enrollment.EnrollmentClientTest.xml

TC-TEST-010-15 / enrollment / Parse enrollment service configuration

Requirement: Enrollment service URL configuration is parsed / Level: unit / Priority: low
Preconditions: None
Expected: Required services and enrollment URL are parsed
JUnit: TestEnvironmentConfigurationTest#shouldParseEnrollmentServiceConfigurationWhenEnrollmentTestingIsEnabled
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-TEST-010-16 / enrollment / Delete and membership removal

Requirement: Admin soft-deletes created enrollment / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and unused alternate course
Expected: 200 and no active membership or course-list entry
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-17 / enrollment / Pending approved rejected and course transitions

Requirement: Admin updates enrollment status and course list / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and two unused alternate courses
Expected: 200 statuses and membership follows changed course list
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-18 / enrollment / Soft delete created enrollment

Requirement: Admin deletes enrollment and removes active membership / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and alternate courses without active communication groups
Expected: Membership false and created ID absent from both active course lists
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-19 / enrollment / Admin-created enrollment is removed by test cleanup

Requirement: Enrollment write workflow cleans up its created records / Level: integration / Priority: high
Preconditions: Opt-in non-production fixtures and Communication Service
Expected: Only test-created enrollment IDs are soft-deleted
JUnit: EnrollmentAuthenticationIT#shouldSupportAdminEnrollmentManagementWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-20 / enrollment / Check membership access for configured roles

Requirement: Enrollment role matrix includes super admin / Level: security / Priority: high
Preconditions: Student teacher admin and super admin credentials
Expected: Configured roles receive 200 for allowed membership read
JUnit: EnrollmentAuthenticationIT#shouldAllowStudentTeacherAndAdminToCheckMembership
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-21 / enrollment / Deny creation for another teacher's course

Requirement: Teacher enrollment creation enforces course ownership / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_UNOWNED_COURSE_ID and student fixture
Expected: Creation in other teacher's course returns 403
JUnit: EnrollmentAuthenticationIT#shouldDenyTeacherEnrollmentCreationForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-22 / enrollment / Probe course directory and unenrolled-student queries with restricted roles

Requirement: Students are denied teacher and administrator enrollment queries / Level: security / Priority: high
Preconditions: Enrollment Service and student/teacher credentials
Expected: Student receives 403 for teacher/admin queries and teacher receives 403 for unenrolled-student query
JUnit: EnrollmentAuthenticationIT#shouldRejectStudentsFromTeacherAndAdminQueries
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-23 / enrollment / Deny update and delete for another teacher's course

Requirement: Teacher enrollment update and delete enforce course ownership / Level: security / Priority: high
Preconditions: TEST_ENROLLMENT_ID identifying an enrollment in another teacher's course
Expected: Update and delete both return 403 without changing the fixture
JUnit: EnrollmentAuthenticationIT#shouldDenyTeacherUpdatingOrDeletingEnrollmentForAnotherTeachersCourse
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-24 / enrollment / Create update and delete enrollment in teacher-owned course

Requirement: Teacher can manage enrollment in owned course / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and owned-course/non-enrolled-student fixtures plus Communication Service
Expected: Created enrollment is approved then removed and membership is cleared
JUnit: EnrollmentAuthenticationIT#shouldAllowTeacherToManageEnrollmentForOwnedCourseWhenWritesAreEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-010-25 / enrollment / Reject self-enrollment into an already active course

Requirement: Duplicate enrollment prevention / Level: integration / Priority: high
Preconditions: TEST_ENROLLMENT_WRITE_ENABLED and verified free TEST_ENROLLMENT_FREE_COURSE_ID plus Course and Communication services
Expected: First enrollment succeeds; duplicate returns 409; original membership remains and the created record is deleted
JUnit: EnrollmentAuthenticationIT#shouldSupportStudentSelfEnrollmentWhenWriteFixturesAreExplicitlyEnabled
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-032 / enrollment / shouldRejectStudentFromAnotherStudentsCourseList

Requirement: FR-S009; BR-001; NFR-SE003 / Level: security / Priority: high
Preconditions: See EnrollmentAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: EnrollmentAuthenticationIT#shouldRejectStudentFromAnotherStudentsCourseList
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-ENROLLMENT-001 / enrollment / should Create Client With Configured Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.enrollment.EnrollmentClientTest#shouldCreateClientWithConfiguredApiClient
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.enrollment.EnrollmentClientTest.xml

TC-UNIT-ENROLLMENT-002 / enrollment / should Reject Null Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.enrollment.EnrollmentClientTest#shouldRejectNullApiClient
Source: src/test/java/com/mentify/tests/enrollment/EnrollmentClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.enrollment.EnrollmentClientTest.xml

Environment

TC-TRACE-033 / environment / shouldKeepRequiredBackendServicesReady

Requirement: SRS-NOT-EXPLICIT (test-environment readiness prerequisite; does not measure uptime or recovery) / Level: integration / Priority: high
Preconditions: See BackendReadinessIT test configuration
Expected: Required backend services must pass readiness before this test suite proceeds
JUnit: BackendReadinessIT#shouldKeepRequiredBackendServicesReady
Source: src/test/java/com/mentify/tests/environment/BackendReadinessIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-ENVIRONMENT-001 / environment / should Complete Given Required Service Returns Successful Status

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.BackendReadinessClientTest#shouldCompleteGivenRequiredServiceReturnsSuccessfulStatus
Source: src/test/java/com/mentify/tests/environment/BackendReadinessClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.BackendReadinessClientTest.xml

TC-UNIT-ENVIRONMENT-002 / environment / should Fail After Timeout Given Service Never Becomes Ready

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.BackendReadinessClientTest#shouldFailAfterTimeoutGivenServiceNeverBecomesReady
Source: src/test/java/com/mentify/tests/environment/BackendReadinessClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.BackendReadinessClientTest.xml

TC-UNIT-ENVIRONMENT-003 / environment / should Fail Clearly Given Environment Is Disabled

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.BackendReadinessClientTest#shouldFailClearlyGivenEnvironmentIsDisabled
Source: src/test/java/com/mentify/tests/environment/BackendReadinessClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.BackendReadinessClientTest.xml

TC-UNIT-ENVIRONMENT-004 / environment / should Probe Auth Service Health Endpoint Given Jwt Environment

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.BackendReadinessClientTest#shouldProbeAuthServiceHealthEndpointGivenJwtEnvironment
Source: src/test/java/com/mentify/tests/environment/BackendReadinessClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.BackendReadinessClientTest.xml

TC-UNIT-ENVIRONMENT-005 / environment / should Retry Given Service Temporarily Fails

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.BackendReadinessClientTest#shouldRetryGivenServiceTemporarilyFails
Source: src/test/java/com/mentify/tests/environment/BackendReadinessClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.BackendReadinessClientTest.xml

TC-UNIT-ENVIRONMENT-006 / environment / should Configure Jwt Auth Service Given Custom Base Url

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldConfigureJwtAuthServiceGivenCustomBaseUrl
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-007 / environment / should Parse Assignment Service Configuration When Assignment Testing Is Enabled

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit:
com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldParseAssignmentServiceConfigurationWhenAssignmentTestingIsEnabled
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-008 / environment / should Parse Calendar Service Configuration When Calendar Testing Is Enabled

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit:
com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldParseCalendarServiceConfigurationWhenCalendarTestingIsEnabled
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-009 / environment / should Parse Configured Service Names Given Valid Defaults

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldParseConfiguredServiceNamesGivenValidDefaults
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-010 / environment / should Parse Course Service Configuration When Course Testing Is Enabled

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldParseCourseServiceConfigurationWhenCourseTestingIsEnabled
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-011 / environment / should Use Legacy Backend Base Url As Gateway Fallback Given Gateway Url Is Absent

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit:
com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldUseLegacyBackendBaseUrlAsGatewayFallbackGivenGatewayUrlIsAbsent
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

TC-UNIT-ENVIRONMENT-012 / environment / should Use Safe Defaults Given Environment Is Not Configured

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.environment.TestEnvironmentConfigurationTest#shouldUseSafeDefaultsGivenEnvironmentIsNotConfigured
Source: src/test/java/com/mentify/tests/environment/TestEnvironmentConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.TestEnvironmentConfigurationTest.xml

Exam

TC-TEST-017-01 / exam / Verify required services are ready before integration tests

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; configured API Gateway and required backend services
Expected: BeforeAll readiness check completes only when every configured required service is healthy
JUnit: BackendReadinessIT#shouldKeepRequiredBackendServicesReady
Source: src/test/java/com/mentify/tests/environment/BackendReadinessIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-02 / exam / Create a valid exam

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Teacher creates an exam and receives its identifier
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-03 / exam / Retrieve the created exam

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: medium
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Teacher retrieves the created exam
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-04 / exam / List exams for a course

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: medium
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Course exam list returns the created exam
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-05 / exam / Update editable exam fields

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Exam update succeeds while preserving the original course association
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-06 / exam / Prevent update from changing owning course

Requirement: NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Attempted courseId replacement is ignored and original courseId remains
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-07 / exam / Schedule an eligible exam

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Exam transitions to SCHEDULED
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-08 / exam / Start exam marking

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course/student fixtures
Expected: Scheduled exam transitions to MARKING
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-09 / exam / Enter marks for an enrolled student

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and enrolled student fixture
Expected: Teacher marks request succeeds for the enrolled student
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-10 / exam / Complete an exam after marking

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and enrolled student fixture
Expected: Exam transitions to COMPLETED
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-11 / exam / Read the exam result sheet

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and enrolled student fixture
Expected: Teacher receives the result sheet
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-12 / exam / Read exam summary aggregates

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: medium
Preconditions: TEST_EXAM_WRITE_ENABLED and enrolled student fixture
Expected: Teacher receives exam summary
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-13 / exam / Cancel an eligible exam

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved course fixture
Expected: Exam transitions to CANCELLED
JUnit: ExamLifecycleIT#teacherCanCancelAnEligibleExam
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-14 / exam / Student retrieves own exam results

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: Exam Service and student credentials
Expected: Student receives own results response
JUnit: ExamStudentResultIT#enrolledStudentCanRetrieveOwnExamResults
Source: src/test/java/com/mentify/tests/exam/ExamStudentResultIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-15 / exam / Reject unauthenticated exam access

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Exam Service
Expected: Protected exam routes return 401
JUnit: ExamAuthorizationIT#unauthenticatedExamRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-16 / exam / Student cannot manage exams

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Exam Service and student credentials
Expected: Student management requests return 403 and own-result routes remain accessible
JUnit: ExamAuthorizationIT#studentCannotUseManagementEndpointsButCanUseOwnResultsEndpoint
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-17 / exam / Reject invalid exam requests

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Exam Service and teacher credentials
Expected: Invalid exam payload returns 400
JUnit: ExamValidationIT#invalidExamAndMarksPayloadsReturnClientErrors
Source: src/test/java/com/mentify/tests/exam/ExamValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-18 / exam / Reject invalid marks requests

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Exam Service and teacher credentials
Expected: Empty or malformed marks return 400
JUnit: ExamValidationIT#invalidExamAndMarksPayloadsReturnClientErrors
Source: src/test/java/com/mentify/tests/exam/ExamValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-19 / exam / Unknown exam and course identifiers return not found

Requirement: NFR-SE001 / Level: validation / Priority: medium
Preconditions: Exam Service and teacher credentials
Expected: Unknown exam and course identifiers return 404
JUnit: ExamValidationIT#unknownExamIdentifiersNeverProduceServerErrors
Source: src/test/java/com/mentify/tests/exam/ExamValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-22 / exam / Read upcoming exams

Requirement: Student upcoming exam read requires student auth / Level: integration / Priority: medium
Preconditions: Exam Service and student credentials
Expected: 200 for student and 401 without token
JUnit: ExamAuthorizationIT#studentCannotUseManagementEndpointsButCanUseOwnResultsEndpoint
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-23 / exam / Reject anonymous attachment reads

Requirement: Exam attachment reads require authentication / Level: security / Priority: high
Preconditions: Exam Service
Expected: 401 Unauthorized
JUnit: ExamAuthorizationIT#unauthenticatedExamRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-24 / exam / Deny student attachment deletion

Requirement: Students cannot delete exam attachments / Level: security / Priority: high
Preconditions: Exam Service and student credentials
Expected: 403 Forbidden
JUnit: ExamAuthorizationIT#studentCannotUseManagementEndpointsButCanUseOwnResultsEndpoint
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-25 / exam / Verify attachment lifecycle and metadata

Requirement: Exam attachment upload/list/download/delete lifecycle / Level: integration / Priority: medium
Preconditions: TEST_EXAM_WRITE_ENABLED plus Course Enrollment Exam and Material services with approved course/student fixtures
Expected: Synthetic PDF upload/list/download metadata/delete succeed; optional byte comparison; attachment and test-created Material record are cleaned up
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-26 / exam / Read scheduled exam as enrolled student

Requirement: Student exam detail is visible only to enrolled students / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED; TEST_EXAM_COURSE_ID and TEST_EXAM_STUDENT_ID; configured Student login must represent that student
Expected: Student retrieves scheduled exam with 200; anonymous/non-student denied and unknown exam returns 404
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-27 / exam / Enforce visible and hidden attachment access

Requirement: Exam attachment student visibility / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED plus matching enrolled student and Course Enrollment Exam Material services
Expected: Student lists/downloads visible attachment but cannot list or download teacher-only attachment; test-created attachment and Material are cleaned up
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-28 / exam / Reject unsupported file and accept synthetic PDF

Requirement: Exam attachment PDF validation / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED plus Course Enrollment Exam and Material services
Expected: TXT upload returns 400; PDF upload returns 201 and both local/remote synthetic artifacts are cleaned up
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-29 / exam / Create and update an exam through multipart instruction routes

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and approved non-production course fixture
Expected: Multipart JSON exam part is accepted for create and update; resulting exam is cancelled during cleanup
JUnit: ExamLifecycleIT#teacherCanCreateAndUpdateExamUsingMultipartInstructionRoutes
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-017-30 / exam / Verify uploaded exam attachment bytes

Requirement: NFR-SE001; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_EXAM_WRITE_ENABLED and TEST_MATERIAL_DOWNLOAD_BYTES_ENABLED with approved storage host
Expected: Teacher and enrolled student download bytes match the synthetic exam attachment upload
JUnit: ExamLifecycleIT#teacherCanRunTheExamLifecycleAndReadResults
Source: src/test/java/com/mentify/tests/exam/ExamLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-034 / exam / nonStudentsCannotUseStudentExamDetailRoute

Requirement: SRS-NOT-EXPLICIT (exam-specific detail route); NFR-SE003 / Level: security / Priority: high
Preconditions: See ExamAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: ExamAuthorizationIT#nonStudentsCannotUseStudentExamDetailRoute
Source: src/test/java/com/mentify/tests/exam/ExamAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-035 / exam / enrolledStudentCanRetrieveOwnExamResults

Requirement: SRS-NOT-EXPLICIT (exam-specific student result visibility is not stated by FR-S024) / Level: integration / Priority: high
Preconditions: See ExamStudentResultIT test configuration
Expected: An enrolled student retrieves their own exam results; cross-student visibility is denied
JUnit: ExamStudentResultIT#enrolledStudentCanRetrieveOwnExamResults
Source: src/test/java/com/mentify/tests/exam/ExamStudentResultIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-036 / exam / invalidExamAndMarksPayloadsReturnClientErrors

Requirement: SRS-NOT-EXPLICIT (exam/marks API validation) / Level: integration / Priority: high
Preconditions: See ExamValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: ExamValidationIT#invalidExamAndMarksPayloadsReturnClientErrors
Source: src/test/java/com/mentify/tests/exam/ExamValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-037 / exam / unknownExamIdentifiersNeverProduceServerErrors

Requirement: SRS-NOT-EXPLICIT (unknown exam resource handling) / Level: integration / Priority: high
Preconditions: See ExamValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: ExamValidationIT#unknownExamIdentifiersNeverProduceServerErrors
Source: src/test/java/com/mentify/tests/exam/ExamValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-EXAM-001 / exam / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.exam.ExamClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/exam/ExamClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.exam.ExamClientTest.xml

TC-UNIT-EXAM-002 / exam / client Rejects Blank Identifiers

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.exam.ExamClientTest#clientRejectsBlankIdentifiers
Source: src/test/java/com/mentify/tests/exam/ExamClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.exam.ExamClientTest.xml

TC-UNIT-EXAM-003 / exam / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.exam.ExamClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/exam/ExamClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.exam.ExamClientTest.xml

Foundation

TC-UNIT-FOUNDATION-001 / foundation / should Run Foundation Test Given Configured J Unit

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.foundation.TestRepositorySmokeTest#shouldRunFoundationTestGivenConfiguredJUnit
Source: src/test/java/com/mentify/tests/foundation/TestRepositorySmokeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.foundation.TestRepositorySmokeTest.xml

Material

TC-TEST-013-38 / material / Admin uploads material for marketplace listing

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_MARKETPLACE_WRITE_ENABLED=true; approved non-production Material Service and upload storage
Expected: Admin multipart upload returns a material ID used for a marketplace product and cleanup is attempted
JUnit: MarketplaceProductIT#administratorCanCreateUpdatePublishAndArchiveMarketplaceProduct
Source: src/test/java/com/mentify/tests/course/MarketplaceProductIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-013-39 / material / Profile-image upload rejects a missing file

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: validation / Priority: medium
Preconditions: Material Service and student credentials
Expected: Multipart upload without the required file part returns 400 and creates no object
JUnit: MaterialAuthenticationIT#profileImageUploadRequiresAnImagePart
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-013-40 / material / Student cannot read another users profile image

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Material Service and student credentials
Expected: Foreign profile-image key is rejected with 403 before storage access
JUnit: MaterialAuthenticationIT#studentCannotDownloadAnotherUsersProfileImage
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-038 / material / shouldRejectStudentAndUnauthenticatedAiSourceReads

Requirement: FR-S013; FR-AI002; NFR-SE003 / Level: integration / Priority: high
Preconditions: See MaterialAiSourcesIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: MaterialAiSourcesIT#shouldRejectStudentAndUnauthenticatedAiSourceReads
Source: src/test/java/com/mentify/tests/material/MaterialAiSourcesIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-039 / material / rejectsProtectedMaterialRequestsWithoutAuthentication

Requirement: FR-S013; FR-T013; NFR-SE001 / Level: security / Priority: high
Preconditions: See MaterialAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: MaterialAuthenticationIT#rejectsProtectedMaterialRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-040 / material / studentCannotManageMaterialsOrRunMaintenance

Requirement: FR-S013; FR-T013; NFR-SE003; BR-005 / Level: security / Priority: high
Preconditions: See MaterialAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: MaterialAuthenticationIT#studentCannotManageMaterialsOrRunMaintenance
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-041 / material / teacherCannotRunMaintenance

Requirement: FR-T013; NFR-SE003 / Level: security / Priority: high
Preconditions: See MaterialAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: MaterialAuthenticationIT#teacherCannotRunMaintenance

Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-045 / material / adminCanAuditAndRunNonDestructiveCleanup

Requirement: SRS-NOT-EXPLICIT (material storage audit/cleanup); NFR-SE003 (admin-only access) / Level: integration / Priority: high
Preconditions: See MaterialLifecycleIT test configuration
Expected: Admin audit and cleanup dry-run routes return success and confirm dryRun=true
JUnit: MaterialLifecycleIT#adminCanAuditAndRunNonDestructiveCleanup
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-MATERIAL-001 / material / rejects Missing Material Id

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.material.MaterialClientTest#rejectsMissingMaterialId
Source: src/test/java/com/mentify/tests/material/MaterialClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialClientTest.xml

TC-UNIT-MATERIAL-002 / material / rejects Null Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.material.MaterialClientTest#rejectsNullApiClient
Source: src/test/java/com/mentify/tests/material/MaterialClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialClientTest.xml

TC-UNIT-MATERIAL-003 / material / allows Http Only For An Explicit Loopback Origin When Enabled

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.material.MaterialDownloadUrlPolicyTest#allowsHttpOnlyForAnExplicitLoopbackOriginWhenEnabled
Source: src/test/java/com/mentify/tests/material/MaterialDownloadUrlPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialDownloadUrlPolicyTest.xml

TEST-013-01 / material / Enrolled student uploads a submission attachment

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; enrolled Student, course, and material fixtures
Expected: Student upload returns HTTP 201 with SUBMISSION_ATTACHMENT purpose and a material ID
JUnit: MaterialLifecycleIT#enrolledStudentCanUploadSubmissionAttachmentMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-02 / material / Teacher uploads learning material for an owned course

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Teacher upload returns HTTP 201 for LEARNING_MATERIAL
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-03 / material / Admin uploads and deletes synthetic material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; approved course and Admin credentials
Expected: Admin creates a synthetic material and deletes it successfully
JUnit: MaterialLifecycleIT#administratorCanUploadAndDeleteSyntheticMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-04 / material / Material upload response includes file metadata

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Response includes material ID, original filename, content type, positive file size, purpose, and UPLOADED status
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-05 / material / Authorized teacher retrieves uploaded material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Retrieved material ID and title match the synthetic upload
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-06 / material / Teacher lists uploaded material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: List response includes the uploaded material
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-07 / material / Material list honors page size

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: List response reports requested page size and contains the uploaded result
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-08 / material / Material title search returns uploaded material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Search by unique title returns the uploaded material ID
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-09 / material / Material list filters by course

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Course-filtered result contains uploaded material with matching course ID
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-10 / material / Material download response provides URL and expiry

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; configured Material storage
Expected: Download response includes material ID, download URL, and expiry metadata
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-11 / material / Download response does not expose storage keys

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; configured Material storage
Expected: Download metadata has no storageKey or provider credentials
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-12 / material / Teacher updates managed material metadata

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Updated title and description are returned
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-13 / material / Teacher archives managed material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Archive returns status ARCHIVED and archived filter includes the material
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-14 / material / Teacher deletes archived test material

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Archived synthetic material is deleted successfully
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-15 / material / Admin performs a non-destructive maintenance audit

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Admin credentials; Material Service
Expected: Audit request returns HTTP 200 and confirms dryRun=true
JUnit: MaterialLifecycleIT#adminCanAuditAndRunNonDestructiveCleanup
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-16 / material / Admin runs cleanup in dry-run mode

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Admin credentials; Material Service
Expected: Cleanup request returns HTTP 200 and confirms dryRun=true
JUnit: MaterialLifecycleIT#adminCanAuditAndRunNonDestructiveCleanup
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-18 / material / Upload without a file is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Multipart upload without a file returns HTTP 400
JUnit: MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-19 / material / Empty file upload is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Empty synthetic file upload returns HTTP 400
JUnit: MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-20 / material / Unsupported file type is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Unsupported synthetic .bin upload returns HTTP 400
JUnit: MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-21 / material / Upload without title is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Upload missing title returns HTTP 400
JUnit: MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-22 / material / Upload without course ID is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher credentials
Expected: Upload missing course ID returns HTTP 400
JUnit: MaterialLifecycleIT#rejectsInvalidMaterialUploadsAndUpdates
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-23 / material / Empty material update is rejected

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: medium
Preconditions: TEST_MATERIAL_WRITE_ENABLED; Teacher-owned course fixture
Expected: Empty update payload for existing material returns HTTP 400
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-24 / material / Unknown material retrieval returns not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_READ_FIXTURES; Teacher credentials
Expected: Unknown material read returns HTTP 404
JUnit: MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-25 / material / Unknown material download returns not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_READ_FIXTURES; Teacher credentials
Expected: Unknown material download returns HTTP 404
JUnit: MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-26 / material / Unknown material update returns not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_READ_FIXTURES; Teacher credentials
Expected: Unknown material update returns HTTP 404
JUnit: MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-27 / material / Unknown archive and delete return not found

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_MATERIAL_READ_FIXTURES; Teacher credentials
Expected: Unknown material archive and delete return HTTP 404
JUnit: MaterialLifecycleIT#unknownMaterialOperationsAreNotReportedAsServerErrors
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-28 / material / Material protected routes require authentication

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Material Service; no credentials
Expected: Protected upload/list/read/download/update/archive/delete/maintenance requests return HTTP 401
JUnit: MaterialAuthenticationIT#rejectsProtectedMaterialRequestsWithoutAuthentication
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-29 / material / Student cannot manage materials or run maintenance

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Material Service and Student credentials
Expected: Student material management and maintenance requests return HTTP 403
JUnit: MaterialAuthenticationIT#studentCannotManageMaterialsOrRunMaintenance
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-30 / material / Temporary material files are cleaned up

Requirement: SRS-NOT-EXPLICIT / Level: unit/integration / Priority: medium
Preconditions: Temporary filesystem access only
Expected: Try-with-resources closes the generated test file and deletes it after the upload lifecycle
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-31 / material / Read AI sources by course

Requirement: AI source list requires teacher or administrator role / Level: integration / Priority: high
Preconditions: Material Service and TEST_MATERIAL_COURSE_ID
Expected: 200 with paginated data for teacher; student/anonymous denied
JUnit: MaterialAiSourcesIT#shouldAllowTeacherToReadAiSourcesForConfiguredCourse
Source: src/test/java/com/mentify/tests/material/MaterialAiSourcesIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-32 / material / Filter by purpose and status

Requirement: Material list filters reflect lifecycle state / Level: integration / Priority: high
Preconditions: Material Service with TEST_MATERIAL_WRITE_ENABLED and approved course fixture
Expected: Uploaded item appears with LEARNING_MATERIAL and UPLOADED filters and later with ARCHIVED filter
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-33 / material / Download uploaded bytes using presigned URL

Requirement: Material signed URL returns uploaded bytes / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_WRITE_ENABLED plus TEST_MATERIAL_DOWNLOAD_BYTES_ENABLED and exact approved TEST_MATERIAL_DOWNLOAD_ALLOWED_HOST
Expected: HTTPS URL returns 200 and bytes exactly match uploaded synthetic file
JUnit: MaterialLifecycleIT#teacherCanUploadRetrieveListDownloadUpdateArchiveAndDeleteMaterial
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-34 / material / Restrict URL byte probe to approved HTTPS host

Requirement: Material signed URL host safety / Level: unit / Priority: high
Preconditions: No external services
Expected: Accepts exact HTTPS host and rejects alternate host scheme credentials fragment and unsafe port
JUnit: MaterialDownloadUrlPolicyTest#acceptsOnlyHttpsOnTheExactConfiguredHost
Source: src/test/java/com/mentify/tests/material/MaterialDownloadUrlPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialDownloadUrlPolicyTest.xml

TEST-013-35 / material / Reject mismatched hosts and non-HTTPS URLs

Requirement: Material signed URL rejects alternate targets / Level: unit / Priority: high
Preconditions: No external services
Expected: Alternate host and HTTP scheme are rejected before network access
JUnit: MaterialDownloadUrlPolicyTest#rejectsUnconfiguredHostsAndNonHttpsSchemes
Source: src/test/java/com/mentify/tests/material/MaterialDownloadUrlPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialDownloadUrlPolicyTest.xml

TEST-013-36 / material / Reject credentials fragments and nonstandard ports

Requirement: Material signed URL rejects unsafe URI components / Level: unit / Priority: high
Preconditions: No external services
Expected: User info fragments and non-443 explicit ports are rejected
JUnit: MaterialDownloadUrlPolicyTest#rejectsCredentialsFragmentsAndUnapprovedPorts
Source: src/test/java/com/mentify/tests/material/MaterialDownloadUrlPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialDownloadUrlPolicyTest.xml

TEST-013-37 / material / Require URL and approved host configuration

Requirement: Material byte probe requires explicit URL configuration / Level: unit / Priority: medium
Preconditions: No external services
Expected: Missing or blank URL/host is rejected
JUnit: MaterialDownloadUrlPolicyTest#requiresAnExplicitHostAndNonEmptyDownloadUrl
Source: src/test/java/com/mentify/tests/material/MaterialDownloadUrlPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.material.MaterialDownloadUrlPolicyTest.xml

TEST-013-39 / material / Reject an unenrolled student's material reads

Requirement: Material course membership controls student access / Level: integration / Priority: high
Preconditions: TEST_MATERIAL_ID and TEST_MATERIAL_COURSE_ID plus distinct secondary student not enrolled in the course
Expected: Secondary student receives 403 for material retrieval and download
JUnit: MaterialLifecycleIT#rejectsUnenrolledSecondaryStudentFromMaterialReads
Source: src/test/java/com/mentify/tests/material/MaterialLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-40 / material / Teacher cannot run material maintenance

Requirement: SRS-NOT-EXPLICIT / Level: security / Priority: high
Preconditions: Material Service and Teacher credentials
Expected: Teacher audit and cleanup requests return HTTP 403
JUnit: MaterialAuthenticationIT#teacherCannotRunMaintenance
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-41 / material / Student uploads a synthetic profile image to local test storage

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_PROFILE_IMAGE_WRITE_ENABLED=true; TEST_PROFILE_IMAGE_STORAGE_CLEANUP_ENABLED=true; TEST_PROFILE_IMAGE_STORAGE_TARGET_CONFIRMED=true; local Gateway and S3-compatible test bucket; Student credentials
Expected: Upload returns 201 with image/png and an object key; test deletes the exact returned key during cleanup
JUnit: MaterialAuthenticationIT#studentCanUploadAndDownloadOwnProfileImageFromLocalTestStorage
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TEST-013-42 / material / Student downloads their own profile image bytes

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: Same local S3-compatible test bucket and synthetic upload as TEST-013-41
Expected: Download returns HTTP 200, image/png, and bytes identical to the synthetic PNG
JUnit: MaterialAuthenticationIT#studentCanUploadAndDownloadOwnProfileImageFromLocalTestStorage
Source: src/test/java/com/mentify/tests/material/MaterialAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

Negative-Path

RES-002 / negative-path / Controlled AI provider failure returns sanitized server error

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: resilience / Priority: high
Preconditions: TEST_RESILIENCE_ENABLED=true; FAULT_INJECTION_ENABLED=true; TEST_PROVIDER_FAILURE_MODE=true; AI Service configured with a controlled failing provider
Expected: Request returns 5xx and does not expose the provider sentinel
JUnit: AiProviderFailureIT#controlledProviderFailureReturnsSanitizedServerError
Source: src/test/java/com/mentify/tests/ai/AiProviderFailureIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

RES-003 / negative-path / Fault injection modes are disabled by default

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: unit / Priority: medium
Preconditions: None
Expected: Security and fault-injection configuration default to disabled
JUnit: SecurityResilienceTestConfigurationTest#securityAndFaultInjectionModesAreDisabledByDefault
Source: src/test/java/com/mentify/tests/security/SecurityResilienceTestConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.security.SecurityResilienceTestConfigurationTest.xml

SEC-001 / negative-path / Missing bearer token is rejected

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: API Gateway and Auth Service
Expected: Protected current-user endpoint returns 401 without a bearer token
JUnit: SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

SEC-002 / negative-path / Empty bearer token is rejected

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: API Gateway and Auth Service
Expected: Protected current-user endpoint returns 401 for an empty bearer token
JUnit: SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

SEC-003 / negative-path / Invalid or malformed bearer token is rejected

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: API Gateway and Auth Service
Expected: Protected endpoint returns 401 for malformed token values
JUnit: SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

SEC-004 / negative-path / Student cannot access administrator probe

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Student credential and User Service
Expected: Administrator probe returns 403 to student
JUnit: SecurityRegressionIT#studentAndTeacherTokensCannotCrossAdministratorBoundary
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

SEC-005 / negative-path / Teacher cannot access administrator probe

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Teacher credential and User Service
Expected: Administrator probe returns 403 to teacher
JUnit: SecurityRegressionIT#studentAndTeacherTokensCannotCrossAdministratorBoundary
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

SEC-006 / negative-path / Authentication error responses do not expose sensitive values

Requirement: NFR-SE001; NFR-SE004 / Level: security / Priority: high
Preconditions: API Gateway
Expected: 401 response contains no password token bearer header or stack trace markers
JUnit: SecurityRegressionIT#protectedErrorResponsesDoNotExposeSensitiveValues
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

Notification

TC-TEST-019-01 / notification / Verify Gateway Auth and Notification services are ready

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; API Gateway Auth and Notification service URLs configured
Expected: Test fails unless all configured required services respond healthy within readiness timeout
JUnit: BackendReadinessIT#shouldKeepRequiredBackendServicesReady
Source: src/test/java/com/mentify/tests/environment/BackendReadinessIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-02 / notification / Read defaults unread page and later page

Requirement: Notification pages expose valid bounded page metadata / Level: integration / Priority: high
Preconditions: Notification Service and synthetic user credentials
Expected: Response metadata and item bounds match request
JUnit: NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-03 / notification / Default notification pagination is correct over HTTP

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Notification Service and student credentials
Expected: HTTP response reports page 0 and size 20
JUnit: NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-04 / notification / Later notification page respects requested bounds

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: Notification Service and student credentials
Expected: HTTP response reports requested page 1 and no more than requested page size
JUnit: NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-05 / notification / Send invalid page and size directly to HTTP endpoint

Requirement: Notification endpoint rejects out-of-range pagination / Level: validation / Priority: high
Preconditions: Notification Service and authenticated user
Expected: 400 Bad Request for invalid page/size
JUnit: NotificationValidationIT#httpEndpointRejectsInvalidPaginationRanges
Source: src/test/java/com/mentify/tests/notification/NotificationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-06 / notification / Verify unreadOnly records have null readAt

Requirement: Unread notification results contain only unread records / Level: integration / Priority: high
Preconditions: Notification Service and synthetic user credentials
Expected: Every returned item is unread
JUnit: NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-07 / notification / Unread count is non-negative and consistent with returned unread records

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: Notification Service and student credentials
Expected: Unread count is non-negative and at least the returned unread-only page size
JUnit: NotificationWorkflowIT#userCanRetrievePaginatedAndUnreadNotifications
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-08 / notification / Mark same notification read twice

Requirement: Notification mark-read is idempotent / Level: integration / Priority: medium
Preconditions: One-time disposable notification owned by configured student
Expected: 200 and stable non-null readAt
JUnit: NotificationWorkflowIT#ownerCanMarkReadMarkAllReadAndDeleteApprovedFixture
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-09 / notification / Owner can mark all notifications read

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_NOTIFICATION_WRITE_ENABLED=true; approved disposable notification fixture
Expected: Mark-all-read returns 200 and a non-negative changed-record count
JUnit: NotificationWorkflowIT#ownerCanMarkReadMarkAllReadAndDeleteApprovedFixture
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-10 / notification / Owner can delete approved notification

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_NOTIFICATION_WRITE_ENABLED=true; approved disposable notification fixture
Expected: Owner receives 200 when deleting the approved notification
JUnit: NotificationWorkflowIT#ownerCanMarkReadMarkAllReadAndDeleteApprovedFixture
Source: src/test/java/com/mentify/tests/notification/NotificationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-11 / notification / Authenticated users have separate notification collections

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: security / Priority: high
Preconditions: TEST_NOTIFICATION_ID owned by configured student; student and teacher credentials; Notification Service
Expected: Configured student-owned notification appears in the student's collection and is absent from the teacher's collection
JUnit: NotificationOwnershipIT#twoAuthenticatedUsersReceiveOnlyTheirOwnNotificationCollections
Source: src/test/java/com/mentify/tests/notification/NotificationOwnershipIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-12 / notification / Teacher attempts to mutate student-owned notification

Requirement: Notification mutations are scoped to the recipient / Level: security / Priority: high
Preconditions: Notification Service and student-owned notification fixture
Expected: 404 for cross-user mark/delete attempts
JUnit: NotificationOwnershipIT#anotherUserCannotMarkOrDeleteAStudentOwnedNotification
Source: src/test/java/com/mentify/tests/notification/NotificationOwnershipIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-13 / notification / Notification endpoints reject unauthenticated access

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Notification Service
Expected: All notification routes return 401 without authentication
JUnit: NotificationAuthorizationIT#unauthenticatedNotificationRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/notification/NotificationAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-14 / notification / Use invalid UUID in mark-read route

Requirement: Malformed notification identifier returns bad request / Level: validation / Priority: medium
Preconditions: Notification Service and authenticated user
Expected: 400 Bad Request
JUnit: NotificationValidationIT#unknownAndMalformedNotificationIdsReturnDocumentedClientErrors
Source: src/test/java/com/mentify/tests/notification/NotificationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-15 / notification / Mark/delete unknown notification

Requirement: Unknown notification identifier returns not found / Level: validation / Priority: medium
Preconditions: Notification Service and authenticated user
Expected: 404 Not Found
JUnit: NotificationValidationIT#unknownAndMalformedNotificationIdsReturnDocumentedClientErrors
Source: src/test/java/com/mentify/tests/notification/NotificationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-16 / notification / Notification endpoint rejects invalid pagination

Requirement: SRS-NOT-EXPLICIT / Level: validation / Priority: high
Preconditions: Notification Service and student credentials
Expected: HTTP endpoint returns 400 for negative page zero size and size above 100
JUnit: NotificationValidationIT#httpEndpointRejectsInvalidPaginationRanges
Source: src/test/java/com/mentify/tests/notification/NotificationValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-17 / notification / Publish a synthetic QUIZ_CREATED event and retrieve it through the authenticated API

Requirement: Notification Service ingests supported Kafka events into the owner's notification list / Level: integration / Priority: high
Preconditions: TEST_NOTIFICATION_EVENT_ENABLED=true; non-production Kafka broker; API Gateway, Auth and Notification Services
Expected: Synthetic event is stored with its event type and appears only in the authenticated recipient's notifications
JUnit: NotificationEventEmailWorkflowIT#supportedKafkaEventCreatesNotificationAndSendsEmailToLocalMailpit
Source: src/test/java/com/mentify/tests/notification/NotificationEventEmailWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-019-18 / notification / Capture the synthetic notification email in local Mailpit

Requirement: Notification Service delivers allowed notification email through the configured SMTP sink / Level: integration / Priority: high
Preconditions: NOTIFICATION_EMAIL_TEST_MODE=true; backend SMTP points only to local Mailpit; synthetic .invalid recipient
Expected: Notification email status is SENT, Mailpit contains the message body, and created notification/message are cleaned up
JUnit: NotificationEventEmailWorkflowIT#supportedKafkaEventCreatesNotificationAndSendsEmailToLocalMailpit
Source: src/test/java/com/mentify/tests/notification/NotificationEventEmailWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-046 / notification / unauthenticatedNotificationRequestsReturnUnauthorized

Requirement: FR-S030; FR-T035; BR-009; NFR-SE001 / Level: security / Priority: high
Preconditions: See NotificationAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: NotificationAuthorizationIT#unauthenticatedNotificationRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/notification/NotificationAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-047 / notification / notificationAccessIsAvailableToAuthenticatedUsersOnly

Requirement: FR-S030; BR-009; NFR-SE003 / Level: security / Priority: high
Preconditions: See NotificationAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: NotificationAuthorizationIT#notificationAccessIsAvailableToAuthenticatedUsersOnly
Source: src/test/java/com/mentify/tests/notification/NotificationAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-048 / notification / twoAuthenticatedUsersReceiveOnlyTheirOwnNotificationCollections

Requirement: FR-S030; BR-009; NFR-SE003 (notification ownership) / Level: integration / Priority: high
Preconditions: See NotificationOwnershipIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: NotificationOwnershipIT#twoAuthenticatedUsersReceiveOnlyTheirOwnNotificationCollections
Source: src/test/java/com/mentify/tests/notification/NotificationOwnershipIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-NOTIFICATION-001 / notification / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.notification.NotificationClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/notification/NotificationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.notification.NotificationClientTest.xml

TC-UNIT-NOTIFICATION-002 / notification / client Rejects Invalid Pagination And Identifiers

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.notification.NotificationClientTest#clientRejectsInvalidPaginationAndIdentifiers
Source: src/test/java/com/mentify/tests/notification/NotificationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.notification.NotificationClientTest.xml

TC-UNIT-NOTIFICATION-003 / notification / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.notification.NotificationClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/notification/NotificationClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.notification.NotificationClientTest.xml

Payment

TC-TEST-018-01 / payment / Verify Gateway Auth Course Enrollment and Payment services are ready

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; configured required service health URLs
Expected: The test waits for each configured service health endpoint and fails if any remains unavailable
JUnit: BackendReadinessIT#shouldKeepRequiredBackendServicesReady
Source: src/test/java/com/mentify/tests/environment/BackendReadinessIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-02 / payment / Start a course payment and inspect safe response data

Requirement: Payment initiation returns the documented pending response / Level: integration / Priority: high
Preconditions: Test Stripe mode and approved payable course/student fixture
Expected: 201 with positive amount three-letter currency PENDING and client secret
JUnit: PaymentStudentIT#studentCanStartAndReadOwnCoursePayment
Source: src/test/java/com/mentify/tests/payment/PaymentStudentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-03 / payment / Read own payment list after initiation

Requirement: Student payment history contains the initiated payment / Level: integration / Priority: high
Preconditions: Payment Service and test-mode PaymentIntent
Expected: 200 and payment ID appears in own list
JUnit: PaymentStudentIT#studentCanStartAndReadOwnCoursePayment
Source: src/test/java/com/mentify/tests/payment/PaymentStudentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-04 / payment / Read own payment details

Requirement: Student payment detail matches payment initiation / Level: integration / Priority: high
Preconditions: Payment Service and test-mode payment
Expected: Payment/course/status/provider fields match
JUnit: PaymentStudentIT#studentCanStartAndReadOwnCoursePayment
Source: src/test/java/com/mentify/tests/payment/PaymentStudentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-05 / payment / Read status endpoint for initiated payment

Requirement: Student payment status agrees with payment detail / Level: integration / Priority: high
Preconditions: Payment Service and test-mode payment
Expected: Payment ID/status match detail resource
JUnit: PaymentStudentIT#studentCanStartAndReadOwnCoursePayment
Source: src/test/java/com/mentify/tests/payment/PaymentStudentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-06 / payment / Second student attempts to read another student's payment

Requirement: Payment detail is private to its owning student / Level: security / Priority: high
Preconditions: Second student credentials and matching ID fixture optional
Expected: Other user's list omits payment and detail/status return 404
JUnit: PaymentStudentIT#studentCanStartAndReadOwnCoursePayment
Source: src/test/java/com/mentify/tests/payment/PaymentStudentIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-07 / payment / Read admin payment page

Requirement: Admin payment listing returns valid page metadata / Level: integration / Priority: high
Preconditions: Payment Service and admin credentials
Expected: Page number/size/total count and content bounds are valid
JUnit: PaymentAdminIT#administratorCanListFilterAndInspectPayments
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-08 / payment / Filter by student course status date and payment reference

Requirement: Admin payment filters return matching records / Level: integration / Priority: high
Preconditions: Payment Service and approved payment fixtures
Expected: Every returned record matches requested filter values
JUnit: PaymentAdminIT#administratorCanListFilterAndInspectPayments
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-09 / payment / Administrator payment pagination returns requested page metadata

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Payment Service and Admin credentials
Expected: Page zero default and page one with size one return matching page and size metadata with bounded content
JUnit: PaymentAdminIT#administratorCanListFilterAndInspectPayments
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-10 / payment / Administrator can inspect a selected payment detail

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Payment Service; Admin credentials; TEST_PAYMENT_* fixtures
Expected: Admin payment reference filter returns the selected payment ID in the response
JUnit: PaymentAdminIT#administratorCanListFilterAndInspectPayments
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-11 / payment / Administrator can verify a student course payment pair

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: Payment Service and Admin credentials
Expected: Unknown synthetic student/course pair returns 200 with successfulPaymentExists=false
JUnit: PaymentAuthorizationIT#administratorCanVerifySuccessfulPaymentForUnknownStudentCoursePair
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-12 / payment / Refund the configured one-time payment fixture

Requirement: Admin refund changes a dedicated successful payment to refunded / Level: integration / Priority: high
Preconditions: TEST_PAYMENT_WRITE_ENABLED=true and TEST_PAYMENT_REFUND_ID with test-mode Stripe refund support
Expected: 200 REFUNDED and provider refund metadata persists
JUnit: PaymentAdminIT#administratorCanInspectAndSafelyRefundAnApprovedTestPayment
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-13 / payment / Student and teacher cannot refund payments

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Payment Service; Student and Teacher credentials
Expected: Student and teacher refund requests return 403
JUnit: PaymentAuthorizationIT#studentsAndTeachersCannotRefundPayments
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-14 / payment / Submit a reason exceeding 500 characters

Requirement: Overlong refund reason returns bad request / Level: validation / Priority: medium
Preconditions: Payment Service and admin credentials
Expected: 400 Bad Request
JUnit: PaymentValidationIT#refundReasonOverLimitReturnsBadRequest
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-15 / payment / Protected payment endpoints reject unauthenticated requests

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Payment Service
Expected: Unauthenticated requests to protected payment routes return 401
JUnit: PaymentAuthorizationIT#unauthenticatedPaymentRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-16 / payment / Student cannot access administrator payment operations

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Payment Service and Student credentials
Expected: Administrator list detail refund and verification routes return 403 to student
JUnit: PaymentAuthorizationIT#studentCanUseOwnEndpointsButCannotUseAdministratorEndpoints
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-17 / payment / Teacher cannot access student or administrator payment operations

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: Payment Service and Teacher credentials
Expected: Student and administrator payment routes return 403 to teacher
JUnit: PaymentAuthorizationIT#teacherCannotUseStudentOrAdministratorPaymentEndpoints
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-18 / payment / Submit malformed/missing IDs and unknown payment IDs

Requirement: Invalid payment IDs and input return exact client errors / Level: validation / Priority: high
Preconditions: Payment Service and student credentials
Expected: 400 for invalid input and 404 for unknown payment
JUnit: PaymentValidationIT#invalidPaymentRequestsReturnExactClientErrorsOrNotFoundResponses
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-19 / payment / Stripe webhook requires a valid signature

Requirement: NFR-SE001; NFR-SE004 / Level: integration / Priority: high
Preconditions: Payment Service
Expected: Missing Stripe signature is rejected with HTTP 400
JUnit: PaymentValidationIT#webhookWithoutSignatureIsRejected
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-23 / payment / Admin verification and teacher/anonymous denial

Requirement: Payment verification requires authorized user / Level: security / Priority: high
Preconditions: Payment Service and admin credentials
Expected: Admin gets false result for unknown pair teacher/anonymous denied
JUnit: PaymentAuthorizationIT#administratorCanVerifySuccessfulPaymentForUnknownStudentCoursePair
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-24 / payment / Missing and malformed Stripe signature validation

Requirement: Invalid payment webhook signatures are rejected / Level: validation / Priority: high
Preconditions: Payment Service
Expected: 400 for malformed signature
JUnit: PaymentValidationIT#webhookWithInvalidSignatureIsRejected
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-25 / payment / Valid signature and duplicate event handling

Requirement: Signed synthetic webhook replay is accepted / Level: integration / Priority: medium
Preconditions: TEST_STRIPE_WEBHOOK_TEST_ENABLED=true and TEST_STRIPE_WEBHOOK_SECRET must match isolated Payment Service
Expected: First delivery accepted and duplicate replay safely accepted without payment-state mutation
JUnit: PaymentValidationIT#signedUnsupportedWebhookIsAcceptedAndSafeToReplay
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-26 / payment / Invalid payment inputs and unknown student payment IDs are rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Payment Service and Student credentials
Expected: Malformed course and verification IDs return 400; unknown course and payment IDs return 404
JUnit: PaymentValidationIT#invalidPaymentRequestsReturnExactClientErrorsOrNotFoundResponses
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-27 / payment / Reverse dates and submit invalid status/student UUID

Requirement: Invalid admin payment filters return bad request / Level: validation / Priority: high
Preconditions: Payment Service and admin credentials
Expected: 400 Bad Request
JUnit: PaymentValidationIT#invalidAdminFilterValuesReturnBadRequest
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-28 / payment / Refund only uses the approved dedicated test payment fixture

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_PAYMENT_WRITE_ENABLED=true; one-time TEST_PAYMENT_REFUND_ID; Admin credentials
Expected: Refund flow first verifies the configured payment ID belongs to the configured student and course and is SUCCESS before issuing refund
JUnit: PaymentAdminIT#administratorCanInspectAndSafelyRefundAnApprovedTestPayment
Source: src/test/java/com/mentify/tests/payment/PaymentAdminIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-29 / payment / Request unknown admin detail and refund

Requirement: Unknown admin payment detail/refund IDs return not found / Level: validation / Priority: medium
Preconditions: Payment Service and admin credentials
Expected: 404 Not Found
JUnit: PaymentValidationIT#invalidAdminFilterValuesReturnBadRequest
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-30 / payment / Verify PaymentIntent success transition and idempotency

Requirement: Signed payment success webhook transitions a disposable pending payment / Level: integration / Priority: high
Preconditions: TEST_PAYMENT_WEBHOOK_WRITE_ENABLED=true plus dedicated pending TEST_PAYMENT_WEBHOOK_SUCCESS_ID and matching non-production Stripe webhook secret
Expected: Payment transitions to SUCCESS with paidAt and duplicate event delivery returns 200 without repeating transition
JUnit: PaymentValidationIT#signedSuccessWebhookTransitionsDedicatedPendingPaymentAndIsIdempotent
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-31 / payment / Verify PaymentIntent failure transition and idempotency

Requirement: Signed payment failure webhook transitions a separate disposable pending payment / Level: integration / Priority: high
Preconditions: TEST_PAYMENT_WEBHOOK_WRITE_ENABLED=true plus dedicated pending TEST_PAYMENT_WEBHOOK_FAILURE_ID and matching non-production Stripe webhook secret
Expected: Payment transitions to FAILED without paidAt and duplicate event delivery returns 200 without repeating transition
JUnit: PaymentValidationIT#signedFailureWebhookTransitionsDedicatedPendingPaymentAndIsIdempotent
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-018-32 / payment / Reject a valid but unknown course ID before payment creation

Requirement: Unknown course payment initiation is not found / Level: validation / Priority: medium
Preconditions: Payment Service and Course Service with student credentials
Expected: Valid unknown course UUID returns 404 without creating a payment or invoking Stripe
JUnit: PaymentValidationIT#invalidPaymentRequestsReturnExactClientErrorsOrNotFoundResponses
Source: src/test/java/com/mentify/tests/payment/PaymentValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-049 / payment / unauthenticatedPaymentRequestsReturnUnauthorized

Requirement: SRS-NOT-EXPLICIT (payment authorization); NFR-SE001 / Level: security / Priority: high
Preconditions: See PaymentAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: PaymentAuthorizationIT#unauthenticatedPaymentRequestsReturnUnauthorized
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-050 / payment / studentCanUseOwnEndpointsButCannotUseAdministratorEndpoints

Requirement: SRS-NOT-EXPLICIT (payment roles); NFR-SE003 / Level: security / Priority: high
Preconditions: See PaymentAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: PaymentAuthorizationIT#studentCanUseOwnEndpointsButCannotUseAdministratorEndpoints
Source: src/test/java/com/mentify/tests/payment/PaymentAuthorizationIT.java

Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.performance.PerformanceConfigurationTest.xml

TC-UNIT-PERFORMANCE-003 / performance / performance Is Disabled And Safe By Default

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.performance.PerformanceConfigurationTest#performanceIsDisabledAndSafeByDefault
Source: src/test/java/com/mentify/tests/performance/PerformanceConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.performance.PerformanceConfigurationTest.xml

Quiz

TC-TEST-014-01 / quiz / Teacher creates a quiz

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Quiz create returns 201 with an ID and requested values
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-02 / quiz / Teacher retrieves a quiz

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Created quiz is retrieved with matching ID and DRAFT status
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-03 / quiz / Teacher lists quizzes

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Created quiz appears in teacher quiz list
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-04 / quiz / Teacher updates a quiz

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Update returns 200 and persists modified duration and pass mark
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-05 / quiz / Teacher creates a question

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Created question has identifier supported question type and four options
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-06 / quiz / Teacher updates a question

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Question update returns 200 and updated question text
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-07 / quiz / Teacher deletes a question

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Created removable question is deleted successfully
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-08 / quiz / Teacher publishes a quiz

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; Teacher credentials
Expected: Quiz transitions to PUBLISHED
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-09 / quiz / Enrolled student lists published course quizzes

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; enrolled student credentials
Expected: Published quiz appears in the enrolled student's course list
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-10 / quiz / Read published quiz as student and inspect option fields

Requirement: Student quiz projection hides correct-answer fields / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: Student option response omits correctness flags
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-11 / quiz / Start first attempt

Requirement: Quiz attempt starts in progress and records attempt number / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: 201 with IN_PROGRESS and attempt number one
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-12 / quiz / Student saves an answer to an attempt

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; enrolled student credentials
Expected: Answer submission is associated with the active attempt and selected option
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-13 / quiz / Answer correctly and submit attempt

Requirement: Quiz submission calculates score percentage and pass state / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: Score and percentage match answer key and pass threshold
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-14 / quiz / Start beyond configured maximum attempts

Requirement: Quiz attempt limit is enforced / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: 409 Conflict
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-15 / quiz / Student cannot create quizzes

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; student and teacher credentials
Expected: Student quiz creation returns 403
JUnit: QuizAuthenticationIT#studentCannotUseTeacherQuizManagementEndpoints
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-16 / quiz / Student cannot create update or delete quiz questions

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; student and teacher credentials
Expected: Student question create update and delete requests return 403
JUnit: QuizAuthenticationIT#studentCannotUseTeacherQuizManagementEndpoints
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-17 / quiz / Teacher cannot start or submit student attempts

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; teacher credentials
Expected: Teacher attempt start answer and submit requests return 403
JUnit: QuizAuthenticationIT#teacherCannotStartOrSubmitStudentAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-18 / quiz / Quiz endpoints reject unauthenticated access

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Quiz Service and API Gateway
Expected: Protected quiz question and attempt routes return 401 without authentication
JUnit: QuizAuthenticationIT#protectedQuizRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-19 / quiz / Blank quiz title is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Blank title request returns 400
JUnit: QuizValidationIT#rejectsInvalidQuizRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-20 / quiz / Invalid quiz duration is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Zero duration request returns 400
JUnit: QuizValidationIT#rejectsInvalidQuizRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-21 / quiz / Invalid maximum attempts is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Zero maximum attempts request returns 400
JUnit: QuizValidationIT#rejectsInvalidQuizRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-22 / quiz / Question without options is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Question request omitting options returns 400
JUnit: QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-23 / quiz / Question with too few options is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Single-option multiple-choice question returns 400
JUnit: QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-24 / quiz / Answer request with missing identifiers is rejected

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Student credentials
Expected: Answer request missing question or selected option identifiers returns 400
JUnit: QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-25 / quiz / Unknown quiz and question operations return not found

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Teacher credentials
Expected: Unknown quiz and question read update delete publish and create operations return 404
JUnit: QuizManagementIT#unknownQuizAndQuestionResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-26 / quiz / Unknown attempt answer and submit operations return not found

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: Quiz Service and Student credentials
Expected: Valid answer and submit operations against unknown attempt IDs return 404
JUnit: QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-27 / quiz / Live quiz integration tests remain disabled by default

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: high
Preconditions: TEST_ENV_ENABLED omitted or false
Expected: Quiz and other live integration classes are disabled without an explicit environment opt-in
JUnit: IntegrationTestExecutionConditionTest#shouldDisableLiveTestClassesByDefault
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

TC-TEST-014-31 / quiz / Start another attempt before submitting the first

Requirement: Quiz prevents concurrent active attempts / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: 409 Conflict
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-32 / quiz / Submit twice and try to change a saved answer

Requirement: Submitted quiz attempts cannot be resubmitted or changed / Level: integration / Priority: high
Preconditions: Assignment Service and enrolled student fixture
Expected: 409 Conflict
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-33 / quiz / Submit a second attempt without answers

Requirement: Unanswered quiz attempt is graded as zero / Level: integration / Priority: medium
Preconditions: Assignment Service and enrolled student fixture
Expected: Zero marks and failed pass state
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-34 / quiz / Read quiz results after repeated student attempts

Requirement: Teacher quiz results return each student's latest submitted attempt / Level: integration / Priority: high
Preconditions: TEST_QUIZ_WRITE_ENABLED plus Assignment Course Enrollment and User Services
Expected: Results contain one latest record per student with score percentage pass state name and submittedAt
JUnit: QuizAttemptWorkflowIT#enrolledStudentCanAccessPublishedQuizAndCompleteAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAttemptWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-35 / quiz / Read closed quiz gradebook results

Requirement: Teacher course gradebook lists closed quizzes and results / Level: integration / Priority: high
Preconditions: TEST_QUIZ_GRADEBOOK_COURSE_ID and TEST_QUIZ_CLOSED_ID with assigned teacher credentials
Expected: Closed quiz appears with title and result list
JUnit: QuizManagementIT#teacherCanReadClosedQuizResultsInGradebook
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-36 / quiz / Probe protected quiz routes without credentials

Requirement: Unauthenticated quiz endpoints reject access / Level: security / Priority: high
Preconditions: Assignment Service and API Gateway
Expected: Protected quiz endpoints return 401
JUnit: QuizAuthenticationIT#protectedQuizRequestsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-37 / quiz / Reject invalid generation settings

Requirement: AI quiz generation validates inputs before provider use / Level: validation / Priority: medium
Preconditions: Assignment Service and synthetic multipart file
Expected: Zero question count and unsupported question type return 400 without AI provider invocation
JUnit: QuizValidationIT#aiQuizGenerationRejectsInvalidSettingsBeforeCallingProvider
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-38 / quiz / Probe teacher management routes with student credentials

Requirement: Students cannot use teacher quiz management routes / Level: security / Priority: high
Preconditions: Assignment Service and student credentials
Expected: Teacher management routes return 403
JUnit: QuizAuthenticationIT#studentCannotUseTeacherQuizManagementEndpoints
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-39 / quiz / Probe missing and malformed gradebook course IDs

Requirement: Teacher gradebook quiz route validates course identifier / Level: validation / Priority: medium
Preconditions: Assignment Service and teacher credentials
Expected: Missing and malformed courseId return 400
JUnit: QuizAuthenticationIT#teacherGradebookQuizRouteValidatesRequiredCourseId
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-40 / quiz / Reject another teacher reading updating or deleting quiz

Requirement: Quiz management is restricted to its owning teacher / Level: security / Priority: high
Preconditions: Assignment Service and Course Service; TEST_QUIZ_WRITE_ENABLED=true; TEST_QUIZ_COURSE_ID; distinct secondary teacher credentials
Expected: 403 for read update and delete; owner deletes synthetic quiz
JUnit: QuizManagementIT#anotherTeacherCannotReadOrManageQuizOwnedByTeacher
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-014-41 / quiz / Verify Gateway Auth Course Enrollment and Assignment dependencies before quiz tests

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; configured Gateway Auth Course Enrollment and Assignment health URLs
Expected: The explicit quiz readiness test fails unless every required dependency is healthy
JUnit: QuizManagementIT#requiredQuizServicesAreReady
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-053 / quiz / teacherCannotStartOrSubmitStudentAttempt

Requirement: FR-S022; FR-T024; NFR-SE003 / Level: security / Priority: high
Preconditions: See QuizAuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: QuizAuthenticationIT#teacherCannotStartOrSubmitStudentAttempt
Source: src/test/java/com/mentify/tests/quiz/QuizAuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-054 / quiz / teacherManagesQuestionsAndPublishesQuiz

Requirement: FR-T024; FR-T026; BR-007 / Level: integration / Priority: high
Preconditions: See QuizManagementIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: QuizManagementIT#teacherManagesQuestionsAndPublishesQuiz
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-055 / quiz / unknownQuizAndQuestionResourcesReturnNotFound

Requirement: FR-T024 (quiz/question resource lookup) / Level: integration / Priority: high
Preconditions: See QuizManagementIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: QuizManagementIT#unknownQuizAndQuestionResourcesReturnNotFound
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-056 / quiz / rejectsInvalidQuizRequests

Requirement: FR-T024 (quiz request validation) / Level: integration / Priority: high
Preconditions: See QuizValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: QuizValidationIT#rejectsInvalidQuizRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-057 / quiz / rejectsInvalidQuestionAndAnswerRequests

Requirement: FR-T024 (question/answer validation) / Level: integration / Priority: high
Preconditions: See QuizValidationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: QuizValidationIT#rejectsInvalidQuestionAndAnswerRequests
Source: src/test/java/com/mentify/tests/quiz/QuizValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-066 / quiz / anotherTeacherCannotReadOrManageQuizOwnedByTeacher

Requirement: FR-T024; NFR-SE003 (quiz owner authorization) / Level: security / Priority: high
Preconditions: Distinct secondary teacher; synthetic quiz and approved course fixture
Expected: Another teacher receives 403 for quiz read, update, and delete; owner deletes the synthetic quiz
JUnit: QuizManagementIT#anotherTeacherCannotReadOrManageQuizOwnedByTeacher
Source: src/test/java/com/mentify/tests/quiz/QuizManagementIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-QUIZ-001 / quiz / clients Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.quiz.QuizClientTest#clientsCanBeConstructed
Source: src/test/java/com/mentify/tests/quiz/QuizClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.quiz.QuizClientTest.xml

TC-UNIT-QUIZ-002 / quiz / clients Reject Blank Resource Ids

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.quiz.QuizClientTest#clientsRejectBlankResourceIds
Source: src/test/java/com/mentify/tests/quiz/QuizClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.quiz.QuizClientTest.xml

TC-UNIT-QUIZ-003 / quiz / clients Require Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.quiz.QuizClientTest#clientsRequireApiClient
Source: src/test/java/com/mentify/tests/quiz/QuizClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.quiz.QuizClientTest.xml

Resilience

TC-TRACE-058 / resilience / controlledDownstreamFailureRequiresApprovedFaultInjection

Requirement: SRS-NOT-EXPLICIT (fault-injection guard; downstream recovery behavior is not exercised) / Level: integration / Priority: high
Preconditions: See DownstreamFailureIT test configuration
Expected: Test requires configured fault injection; the current guard asserts no downstream failure or recovery behavior
JUnit: DownstreamFailureIT#controlledDownstreamFailureRequiresApprovedFaultInjection
Source: src/test/java/com/mentify/tests/resilience/DownstreamFailureIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-059 / resilience / controlledProviderFailureReturnsSanitizedServerError

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 (controlled provider failure) / Level: integration / Priority: high
Preconditions: See AiProviderFailureIT test configuration
Expected: Controlled provider failure returns 5xx without exposing its sentinel when provider test mode is enabled
JUnit: AiProviderFailureIT#controlledProviderFailureReturnsSanitizedServerError
Source: src/test/java/com/mentify/tests/ai/AiProviderFailureIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

Security

TC-ANALYTICS-005 / security / Reject unauthenticated requests to internal service routes

Requirement: SRS-NOT-EXPLICIT; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_INTERNAL_ROUTE_AUTH_ENABLED=true; API Gateway and source services available; no credentials or mutation fixtures required
Expected: All 26 previously unmatched internal routes reject requests without required credentials with HTTP 401 or 403
JUnit: InternalRouteAuthorizationIT#unauthenticatedRequestsAreRejectedAcrossInternalRoutes
Source: src/test/java/com/mentify/tests/course/InternalRouteAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-024-01 / security / Probe token authentication boundaries

Requirement: Protected resources reject missing invalid and malformed tokens / Level: security / Priority: high
Preconditions: API Gateway and User Service with test environment enabled
Expected: All protected requests return 401
JUnit: SecurityRegressionIT#protectedEndpointsRejectMissingInvalidAndMalformedTokens
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-024-02 / security / Check administrator endpoint denies non-admin roles

Requirement: Student and Teacher cannot cross administrator boundary / Level: security / Priority: high
Preconditions: API Gateway and distinct Student and Teacher credentials
Expected: Both requests return 403
JUnit: SecurityRegressionIT#studentAndTeacherTokensCannotCrossAdministratorBoundary
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-024-03 / security / Inspect protected error response for sensitive values

Requirement: Authentication errors do not leak secrets / Level: security / Priority: high
Preconditions: API Gateway and User Service
Expected: 401 response omits password token bearer and stack-trace values
JUnit: SecurityRegressionIT#protectedErrorResponsesDoNotExposeSensitiveValues
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-024-04 / security / Reject an expired access token with a valid signature

Requirement: Expired signed JWT is rejected / Level: security / Priority: high
Preconditions: API Gateway User Service student credentials and local AUTH_JWT_PRIVATE_KEY_BASE64
Expected: Protected request returns 401 for an expired signed token
JUnit: SecurityRegressionIT#expiredSignedAccessTokenIsRejected
Source: src/test/java/com/mentify/tests/security/SecurityRegressionIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-SECURITY-001 / security / explicit Modes Are Read Without Exposing Values

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.security.SecurityResilienceTestConfigurationTest#explicitModesAreReadWithoutExposingValues
Source: src/test/java/com/mentify/tests/security/SecurityResilienceTestConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.security.SecurityResilienceTestConfigurationTest.xml

TC-UNIT-SECURITY-002 / security / security And Fault Injection Modes Are Disabled By Default

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.security.SecurityResilienceTestConfigurationTest#securityAndFaultInjectionModesAreDisabledByDefault
Source: src/test/java/com/mentify/tests/security/SecurityResilienceTestConfigurationTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.security.SecurityResilienceTestConfigurationTest.xml

Staging

TC-TEST-028-01 / staging / Missing or incorrect staging confirmation fails before requests

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: unit / Priority: high
Preconditions: No network target; policy-only test
Expected: Missing or incorrect confirmation throws configuration error before any HTTP request
JUnit: StagingTargetPolicyTest#rejectsMissingOrIncorrectConfirmationBeforeAnyRequest
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-TEST-028-02 / staging / Unsafe staging URL is rejected before network access

Requirement: NFR-SE001 / Level: unit / Priority: high
Preconditions: No network target; policy-only test
Expected: HTTP embedded credentials query string non-443 port and unapproved host are rejected
JUnit: StagingTargetPolicyTest#rejectsHttpEmbeddedCredentialsQueryAndUnapprovedHosts
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-TEST-028-03 / staging / Malformed deployment revision is rejected

Requirement: NFR-SE001 / Level: unit / Priority: high
Preconditions: No network target; policy-only test
Expected: Malformed deployment revision fails closed
JUnit: StagingTargetPolicyTest#rejectsInvalidDeploymentRevision
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-TEST-028-04 / staging / Staging HTTP probe does not follow cross-host redirects

Requirement: NFR-SE001 / Level: unit / Priority: high
Preconditions: Loopback-only synthetic HTTP server
Expected: Probe returns redirect status and does not follow it to another host
JUnit: StagingHttpProbeTest#doesNotFollowRedirectsToAnotherHost
Source: src/test/java/com/mentify/tests/staging/StagingHttpProbeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingHttpProbeTest.xml

TC-TEST-028-05 / staging / Staging HTTP probe enforces request timeout

Requirement: NFR-SE001 / Level: unit / Priority: high
Preconditions: Loopback-only synthetic delayed HTTP server
Expected: Probe throws within the configured request timeout
JUnit: StagingHttpProbeTest#appliesRequestTimeoutWithoutReadingResponseBody
Source: src/test/java/com/mentify/tests/staging/StagingHttpProbeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingHttpProbeTest.xml

TC-TEST-028-06 / staging / Wait for approved staging Gateway health

Requirement: Gateway health becomes ready within bounded deadline / Level: smoke / Priority: high
Preconditions: Manually approved staging target and protected workflow
Expected: HTTP 2xx within readiness deadline
JUnit: StagingSmokeIT#gatewayHealthIsReadyWithinBoundedDeadline
Source: src/test/java/com/mentify/tests/staging/StagingSmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-028-07 / staging / Validate published RSA RS256 JWT public signing key

Requirement: JWT signing key set is available / Level: smoke / Priority: high
Preconditions: Manually approved staging target and protected workflow
Expected: HTTP 200 JSON contains RSA signing key fields kid n and e
JUnit: StagingSmokeIT#jwtSigningKeysArePublished
Source: src/test/java/com/mentify/tests/staging/StagingSmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-028-08 / staging / Verify Auth Service health endpoint

Requirement: Auth Service health is ready / Level: smoke / Priority: high
Preconditions: Manually approved staging target and protected workflow
Expected: HTTP 2xx within readiness deadline
JUnit: StagingSmokeIT#authServiceHealthIsReadyWithinBoundedDeadline
Source: src/test/java/com/mentify/tests/staging/StagingSmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-028-09 / staging / Probe protected endpoint without token

Requirement: Anonymous protected Gateway probe is rejected / Level: security / Priority: high
Preconditions: Manually approved staging target and protected workflow
Expected: HTTP 401 or 403 without sending a token
JUnit: StagingSmokeIT#protectedProbeRejectsAnonymousRequest
Source: src/test/java/com/mentify/tests/staging/StagingSmokeIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-028-12 / staging / Default CI does not enable staging smoke tests

Requirement: SRS-NOT-EXPLICIT / Level: unit / Priority: high
Preconditions: STAGING_ENVIRONMENT and TEST_ENV_ENABLED absent
Expected: Staging integration test remains disabled unless explicit staging environment is configured
JUnit: IntegrationTestExecutionConditionTest#shouldRequireStagingTargetForStagingSmokeClass
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

TC-TEST-028-13 / staging / Production environment is rejected by staging target policy

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: unit / Priority: high
Preconditions: No network target; policy-only test
Expected: Production environment setting fails closed before any request
JUnit: StagingTargetPolicyTest#rejectsNonStagingEnvironment
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-TEST-028-14 / staging / IP address is rejected as the staging host suffix

Requirement: NFR-SE001 / Level: unit / Priority: medium
Preconditions: No network target; policy-only test
Expected: IP address host suffix is rejected by target policy
JUnit: StagingTargetPolicyTest#rejectsIpAddressAsStagingHostSuffix
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-001 / staging / applies Request Timeout Without Reading Response Body

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingHttpProbeTest#appliesRequestTimeoutWithoutReadingResponseBody
Source: src/test/java/com/mentify/tests/staging/StagingHttpProbeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingHttpProbeTest.xml

TC-UNIT-STAGING-002 / staging / does Not Follow Redirects To Another Host

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingHttpProbeTest#doesNotFollowRedirectsToAnotherHost
Source: src/test/java/com/mentify/tests/staging/StagingHttpProbeTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingHttpProbeTest.xml

TC-UNIT-STAGING-003 / staging / accepts Confirmed Https Host Within Configured Staging Suffix

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#acceptsConfirmedHttpsHostWithinConfiguredStagingSuffix
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-004 / staging / rejects Http Embedded Credentials Query And Unapproved Hosts

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#rejectsHttpEmbeddedCredentialsQueryAndUnapprovedHosts
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-005 / staging / rejects Invalid Deployment Revision

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#rejectsInvalidDeploymentRevision
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-006 / staging / rejects Ip Address As Staging Host Suffix

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#rejectsIpAddressAsStagingHostSuffix
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-007 / staging / rejects Missing Or Incorrect Confirmation Before Any Request

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#rejectsMissingOrIncorrectConfirmationBeforeAnyRequest
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

TC-UNIT-STAGING-008 / staging / rejects Non Staging Environment

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.staging.StagingTargetPolicyTest#rejectsNonStagingEnvironment
Source: src/test/java/com/mentify/tests/staging/StagingTargetPolicyTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.staging.StagingTargetPolicyTest.xml

Test-Harness

TC-TEST-038-01 / test-harness / Live integration tests are disabled by default

Requirement: SRS-NOT-EXPLICIT (test harness safe-default behavior) / Level: unit / Priority: high
Preconditions: None; deterministic environment map
Expected: Integration test classes receive a clear disabled reason when TEST_ENV_ENABLED is missing or false
JUnit: IntegrationTestExecutionConditionTest#shouldDisableLiveTestClassesByDefault
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

TC-TEST-038-02 / test-harness / Unit tests remain enabled when live integration is disabled

Requirement: SRS-NOT-EXPLICIT (test harness safe-default behavior) / Level: unit / Priority: high
Preconditions: None; deterministic environment map
Expected: Static unit test classes are not disabled by the live-integration condition
JUnit: IntegrationTestExecutionConditionTest#shouldLeaveUnitTestsEnabledWhenIntegrationIsDisabled
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

TC-TEST-038-03 / test-harness / Explicit integration enablement activates live tests

Requirement: SRS-NOT-EXPLICIT (test harness opt-in behavior) / Level: unit / Priority: high
Preconditions: None; deterministic environment map
Expected: TEST_ENV_ENABLED=true enables the integration class condition
JUnit: IntegrationTestExecutionConditionTest#shouldEnableLiveTestClassWhenEnvironmentIsExplicitlyEnabled
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

TC-TEST-038-04 / test-harness / Staging smoke requires explicit staging target

Requirement: SRS-NOT-EXPLICIT (staging test target safeguard) / Level: unit / Priority: high
Preconditions: None; deterministic environment map
Expected: StagingSmokeIT is disabled unless STAGING_ENVIRONMENT=staging
JUnit: IntegrationTestExecutionConditionTest#shouldRequireStagingTargetForStagingSmokeClass
Source: src/test/java/com/mentify/tests/environment/IntegrationTestExecutionConditionTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.environment.IntegrationTestExecutionConditionTest.xml

User

TC-TEST-021-01 / user / Verify Gateway Auth and User services are ready

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: high
Preconditions: TEST_ENV_ENABLED=true; configured Gateway Auth and User Service health URLs
Expected: Readiness test fails unless every configured required service responds healthy within the configured timeout
JUnit: UserProfileIT#requiredUserServicesAreReady
Source: src/test/java/com/mentify/tests/user/UserProfileIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-02 / user / Public authentication probe is available

Requirement: SRS-NOT-EXPLICIT / Level: integration / Priority: medium
Preconditions: API Gateway and User Service
Expected: Public probe returns HTTP 200 and success response without authentication
JUnit: AuthenticationIT#publicAndProtectedAuthenticationProbesFollowTheirSecurityRules
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-03 / user / Protected user endpoints reject missing authentication

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: User Service
Expected: Protected profile listing and analytics requests return 401 without credentials
JUnit: UserAuthorizationIT#protectedUserEndpointsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/user/UserAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-04 / user / Student and administrator role probes follow access rules

Requirement: FR-S001; FR-S002; FR-A001; NFR-SE003 / Level: security / Priority: high
Preconditions: Student and Admin credentials; User Service
Expected: Student profile access succeeds student admin listing is denied and admin listing succeeds
JUnit: AuthenticationIT#roleProbesMatchStudentAndAdministratorTokens
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-05 / user / Invalid login credentials and payloads are rejected

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Auth Service; synthetic invalid credentials
Expected: Invalid password login returns the documented client error
JUnit: AuthenticationLoginIT#shouldRejectAnInvalidLoginRequest
Source: src/test/java/com/mentify/tests/auth/AuthenticationLoginIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-06 / user / Invalid refresh token is rejected

Requirement: NFR-SE001 / Level: security / Priority: high
Preconditions: Auth Service; synthetic invalid token
Expected: Invalid refresh token is rejected with the observed contract status
JUnit: AuthenticationRefreshIT#shouldRejectAnInvalidRefreshToken
Source: src/test/java/com/mentify/tests/auth/AuthenticationRefreshIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-07 / user / Invalid logout request is rejected safely

Requirement: NFR-SE001 / Level: security / Priority: medium
Preconditions: Auth Service
Expected: Logout request without required data returns 400
JUnit: AuthenticationIT#invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-08 / user / Invalid forgot-password email is rejected

Requirement: FR-S005; NFR-SE001; NFR-SE004 / Level: validation / Priority: medium
Preconditions: Auth Service; malformed synthetic email
Expected: Malformed forgot-password email returns 400
JUnit: AuthenticationIT#invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-09 / user / Authenticated student can retrieve their own profile

Requirement: FR-S003; NFR-SE002 / Level: integration / Priority: high
Preconditions: User Service and Student credentials
Expected: Current-user request returns 200 for the authenticated profile
JUnit: UserProfileIT#authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields
Source: src/test/java/com/mentify/tests/user/UserProfileIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-10 / user / Profile response does not expose sensitive fields

Requirement: NFR-SE004 / Level: security / Priority: high
Preconditions: User Service and Student credentials
Expected: Profile response contains no password refresh token or client secret fields
JUnit: UserProfileIT#authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields
Source: src/test/java/com/mentify/tests/user/UserProfileIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-11 / user / Administrator can list users by role

Requirement: FR-A001; FR-A002; FR-A003 / Level: integration / Priority: high
Preconditions: User Service and Admin credentials
Expected: Student and teacher lists contain only entries with the requested role
JUnit: UserAdministrationIT#administratorCanListUsersAndReadAnalytics
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-12 / user / Administrator can list students with pagination

Requirement: FR-A001; FR-A002 / Level: integration / Priority: medium
Preconditions: User Service and Admin credentials
Expected: Student page returns records with STUDENT role
JUnit: UserAdministrationIT#administratorCanListUsersAndReadAnalytics
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-13 / user / Administrator can list teachers with pagination

Requirement: FR-A001; FR-A003 / Level: integration / Priority: medium
Preconditions: User Service and Admin credentials
Expected: Teacher page returns records with TEACHER role
JUnit: UserAdministrationIT#administratorCanListUsersAndReadAnalytics
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-14 / user / Administrator can read user registration analytics

Requirement: FR-A004 / Level: integration / Priority: medium
Preconditions: User Service and Admin credentials
Expected: Registration analytics endpoint returns HTTP 200
JUnit: UserAdministrationIT#administratorCanListUsersAndReadAnalytics
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-15 / user / Administrator user mutations validate fields and resource IDs

Requirement: NFR-SE001 / Level: validation / Priority: high
Preconditions: User Service and Admin credentials
Expected: Malformed registration and status payloads return 400 and unknown user operations return 404
JUnit: UserAdministrationIT#administratorOperationsValidateUnknownUsersAndFields
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-16 / user / Student cannot perform administrator user operations

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: User Service and Student credentials
Expected: Student listing analytics status registration and delete attempts are denied
JUnit: UserAuthorizationIT#studentsAndTeachersCannotPerformAdministratorOperations
Source: src/test/java/com/mentify/tests/user/UserAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-17 / user / Teacher cannot perform administrator user operations

Requirement: NFR-SE003 / Level: security / Priority: high
Preconditions: User Service and Teacher credentials
Expected: Teacher listing registration and delete attempts are denied
JUnit: UserAuthorizationIT#studentsAndTeachersCannotPerformAdministratorOperations
Source: src/test/java/com/mentify/tests/user/UserAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-18 / user / Administrator registers a synthetic student account

Requirement: FR-A001; FR-A002; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; local Mailpit API; Admin credentials
Expected: Synthetic student registration returns 201 and created user is deleted during cleanup
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-19 / user / Super Admin registers a synthetic administrator account

Requirement: FR-A003; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; TEST_SUPER_ADMIN_SUPPORTED=true; Super Admin credentials; local Mailpit API
Expected: Admin registration returns 201 with INVITED status and created account is deleted during cleanup
JUnit: UserRegistrationWorkflowIT#superAdministratorCanRegisterSyntheticAdministratorAndCaptureInvitation
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-20 / user / Invitation and password-reset emails are captured safely

Requirement: FR-A005; NFR-SE004 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; backend SMTP pointed to local Mailpit; local Mailpit API
Expected: Invitation and reset messages reach only the local Mailpit inbox and are deleted during cleanup
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-21 / user / Administrator deactivates and reactivates the dedicated test user

Requirement: FR-A004; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_ID identifies a disposable user; Admin credentials
Expected: Status update endpoint accepts deactivation and reactivation and cleanup restores active state
JUnit: UserStatusLifecycleIT#administratorCanDeactivateAndReactivateDedicatedTestUser
Source: src/test/java/com/mentify/tests/user/UserStatusLifecycleIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-22 / user / Student and teacher existence checks return safe false values for unknown identities

Requirement: SRS-NOT-EXPLICIT; NFR-SE004 / Level: validation / Priority: high
Preconditions: User Service and Admin credentials
Expected: Unknown student and teacher IDs and malformed student identity return explicit false without details
JUnit: UserValidationIT#invalidUserIdentifiersAndStatusPayloadsAreHandledSafely
Source: src/test/java/com/mentify/tests/user/UserValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-25 / user / Reject unauthorized user-management operations

Requirement: User administration is restricted by role / Level: security / Priority: high
Preconditions: User Service and student/teacher/admin credentials
Expected: 403 Forbidden for disallowed roles
JUnit: UserAdministrationIT#shouldRestrictUserAdministrationToAllowedRoles
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-26 / user / Read and no-op update self profile

Requirement: User can read and submit no-op self profile update / Level: integration / Priority: medium
Preconditions: User Service and student credentials
Expected: 200 with own profile and successful no-op update
JUnit: UserSelfServiceIT#shouldAllowUsersToReadAndNoOpUpdateTheirOwnProfile
Source: src/test/java/com/mentify/tests/user/UserSelfServiceIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-27 / user / Teacher profile/guidance authorization

Requirement: Teacher-only profile and guidance routes reject students / Level: security / Priority: high
Preconditions: User Service and teacher/student credentials
Expected: Teacher no-op update succeeds student denied invalid note 400
JUnit: UserSelfServiceIT#shouldAllowTeacherToSubmitNoOpProfileUpdateAndRestrictTeacherOnlyRoutes
Source: src/test/java/com/mentify/tests/user/UserSelfServiceIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-28 / user / Teacher and student lookup behavior

Requirement: User lookup routes validate missing records and inputs / Level: integration / Priority: medium
Preconditions: User Service and teacher credentials
Expected: Unknown teacher 404 unknown student list empty
JUnit: UserSelfServiceIT#shouldReturnNotFoundForUnknownTeacherAndEmptyForUnknownStudentLookup
Source: src/test/java/com/mentify/tests/user/UserSelfServiceIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-29 / user / Unauthenticated protected route matrix

Requirement: Protected user routes require authentication / Level: security / Priority: high
Preconditions: User Service
Expected: 401 Unauthorized
JUnit: UserSelfServiceIT#shouldRejectUnauthenticatedSelfServiceAndProtectedLookupCalls
Source: src/test/java/com/mentify/tests/user/UserSelfServiceIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-30 / user / Reject empty password and registration requests

Requirement: Password change and student registration validate payloads / Level: validation / Priority: high
Preconditions: User Service and student credentials
Expected: 400 Bad Request
JUnit: UserSelfServiceIT#shouldValidatePasswordChangeAndRequireAuthenticationForRegistration
Source: src/test/java/com/mentify/tests/user/UserSelfServiceIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-31 / user / Enforce student lookup ownership

Requirement: Student lookup results are restricted to the authenticated student / Level: integration / Priority: high
Preconditions: User Service plus distinct SECONDARY_STUDENT_TEST credentials
Expected: Own student summary returns 200 and another student's summary returns 403 from both lookup routes
JUnit: UserLookupOwnershipIT#studentCanLookupOnlyTheirOwnSummaryWhenAnotherStudentIsConfigured
Source: src/test/java/com/mentify/tests/user/UserLookupOwnershipIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-32 / user / Verify user list role filters

Requirement: Administrator list filters must return matching roles / Level: integration / Priority: high
Preconditions: User Service and administrator plus student and teacher accounts
Expected: Each filtered list includes records and all returned roles match the requested role
JUnit: UserAdministrationIT#administratorCanListUsersAndReadAnalytics
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-33 / user / Verify student and teacher existence booleans

Requirement: Existence endpoints return false for unknown identities / Level: integration / Priority: medium
Preconditions: User Service and administrator credentials
Expected: Unknown IDs return HTTP 200 with false and malformed student ID returns false
JUnit: UserValidationIT#invalidUserIdentifiersAndStatusPayloadsAreHandledSafely
Source: src/test/java/com/mentify/tests/user/UserValidationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-34 / user / Verify unknown account lifecycle targets

Requirement: Unknown administration targets return not found / Level: integration / Priority: medium
Preconditions: User Service and administrator credentials
Expected: Valid status update invitation resend and delete requests for unknown user return 404 while malformed status payload returns 400
JUnit: UserAdministrationIT#administratorOperationsValidateUnknownUsersAndFields
Source: src/test/java/com/mentify/tests/user/UserAdministrationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-36 / user / Student-only probe enforces its role restriction

Requirement: SRS-NOT-EXPLICIT; NFR-SE001 / Level: security / Priority: high
Preconditions: API Gateway, User Service, Student and Teacher credentials
Expected: Student receives HTTP 200; missing authentication and teacher role receive 401 and 403
JUnit: AuthenticationIT#studentProbeRequiresTheStudentRole
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-37 / user / Administrator deletes the synthetic registered user during cleanup

Requirement: FR-A004; NFR-SE003 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; local Mailpit; disposable synthetic account
Expected: Delete endpoint returns 200 and the created account is removed
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-38 / user / Administrator resends invitation for a synthetic invited student

Requirement: FR-A005; NFR-SE004 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; backend SMTP points to local Mailpit
Expected: Resend endpoint returns 200 and the invitation message is captured and cleaned up
JUnit: UserRegistrationWorkflowIT#administratorCanRegisterSyntheticStudentAndCaptureInvitationAndResetEmails
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TEST-021-39 / user / Public registration creates a synthetic student and delivers credentials to local Mailpit

Requirement: FR-A001; FR-A002; NFR-SE004 / Level: integration / Priority: high
Preconditions: TEST_USER_WRITE_ENABLED=true; TEST_USER_MAIL_CAPTURE_ENABLED=true; local Mailpit; Admin credentials for cleanup
Expected: Public registration returns 201, Mailpit captures credentials email, and cleanup deletes the account/message
JUnit: UserRegistrationWorkflowIT#publicStudentRegistrationCreatesAccountAndCapturesCredentialsEmail
Source: src/test/java/com/mentify/tests/user/UserRegistrationWorkflowIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-060 / user / publicAndProtectedAuthenticationProbesFollowTheirSecurityRules

Requirement: FR-S001; FR-S002; FR-T001; FR-T002; NFR-SE001 / Level: security / Priority: high
Preconditions: See AuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AuthenticationIT#publicAndProtectedAuthenticationProbesFollowTheirSecurityRules
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-061 / user / roleProbesMatchStudentAndAdministratorTokens

Requirement: FR-S002; FR-T002; FR-A002; NFR-SE003 / Level: security / Priority: high
Preconditions: See AuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AuthenticationIT#roleProbesMatchStudentAndAdministratorTokens
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-062 / user / invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput

Requirement: FR-S001; FR-S002; NFR-SE001; NFR-SE004 / Level: security / Priority: high
Preconditions: See AuthenticationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: AuthenticationIT#invalidAuthenticationPayloadsAreRejectedWithoutSensitiveOutput
Source: src/test/java/com/mentify/tests/user/AuthenticationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-063 / user / studentsAndTeachersCannotPerformAdministratorOperations

Requirement: FR-A001; FR-A002; FR-A003; BR-005; NFR-SE003 / Level: security / Priority: high
Preconditions: See UserAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: UserAuthorizationIT#studentsAndTeachersCannotPerformAdministratorOperations
Source: src/test/java/com/mentify/tests/user/UserAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-064 / user / protectedUserEndpointsRejectMissingAuthentication

Requirement: FR-A001; FR-A002; FR-A003; BR-005; NFR-SE001 / Level: security / Priority: high
Preconditions: See UserAuthorizationIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: UserAuthorizationIT#protectedUserEndpointsRejectMissingAuthentication
Source: src/test/java/com/mentify/tests/user/UserAuthorizationIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-TRACE-065 / user / authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields

Requirement: FR-S003; FR-T003; NFR-SE002 / Level: integration / Priority: high
Preconditions: See UserProfileIT test configuration
Expected: The scenario assertions pass; execution status is reported from JUnit, never inferred from this mapping
JUnit: UserProfileIT#authenticatedUserCanRetrieveOwnProfileWithoutSensitiveFields
Source: src/test/java/com/mentify/tests/user/UserProfileIT.java
Actual: Not Run / Evidence: No JUnit XML in this run

TC-UNIT-USER-001 / user / client Can Be Constructed

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.user.UserClientTest#clientCanBeConstructed
Source: src/test/java/com/mentify/tests/user/UserClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.user.UserClientTest.xml

TC-UNIT-USER-002 / user / client Rejects Blank User Identifiers

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.user.UserClientTest#clientRejectsBlankUserIdentifiers
Source: src/test/java/com/mentify/tests/user/UserClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.user.UserClientTest.xml

TC-UNIT-USER-003 / user / client Requires Api Client

Requirement: Repository test harness behavior; SRS requirement not applicable / Level: unit / Priority: low
Preconditions: None; deterministic unit test
Expected: The assertions in the mapped JUnit method pass; execution status is taken from JUnit.
JUnit: com.mentify.tests.user.UserClientTest#clientRequiresApiClient
Source: src/test/java/com/mentify/tests/user/UserClientTest.java
Actual: Passed / Evidence: target/surefire-reports/TEST-com.mentify.tests.user.UserClientTest.xml
